VICTORIA, B.C., THURSDAY, MAY 28, 1942—18 PAGES

PRICE FIVE CENTS

Noted Headmasters Plan New Naval College Here

Canada's new Naval College at Esquimalt, B.C., will open in October, largely through the efforts of two outstanding educators. Discussing plans for the courses when they were photographed, they are, left, Acting Commander C. H. Bonnycastle, until recently headmaster of Rothesay College in New Brunswick, and Lieut.-Commander Kenneth Ketchum, lately headmaster of St. Andrew's College and newly-appointed director of studies at the new college. Applications for entry to the Naval College close this Saturday at the office of the Naval Secretary, Naval Headquarters, Ottawa.

Axis Tanks 15 Miles From Tobruk

4-Pronged Drive Heavily Repulsed On Both Flanks

CAIRO (AP)—The sudden Axis offensive eastward in the Libyan desert has driven within 15 miles of the key British-defensive stronghold of Tobruk despite being repulsed at both flanks, it was disclosed today.

This indicated an advance of about 30 miles past the British forward defence line, which stretched between Bir Hacheim and Ain el Gazala.

An R.A.F. communique revealed the depth of these thrusts by Marshal Erwin Rommel's German-Italian tanks. It said the British fliers bombed the enemy armored forces throughout Wednesday in the El Adem and Bir Hacheim areas.

El Adem is 15 miles south of Tobruk; Bir Hacheim 50 miles southeast.

NO BREAK-THROUGH

An authoritative British statement was issued later stating the enemy's presence in the El Adem area was not of great significance and did not mean a "break-through," since in nature of desert fighting there was no definite line in the usual sense.

An earlier British army communique said the Axis attacks were in four main columns, and that one directly before Bir Hacheim and another south of Ain el Gazala, which is 30 miles west of Tobruk, had been repulsed with heavy casualties.

Between these extremities two other Axis columns were being heavily engaged with results as yet undetermined, the army communique said.

MANY CARS WRECKED

The R.A.F. announcement placed these forces even deeper than the army had intimated, but said the all-day bombings had wrecked many transport vehicles. The R.A.F. planes also ranged widely in smashing attacks on airfields and bases behind the enemy lines and in fighting off Axis air attacks shot down 12 enemy planes while losing four.

The main German-Italian thrust apparently was aiming directly toward Tobruk, which the British forces have held against all vicissitudes since their first offensive into Libya in the winter of 1940-41.

TBRUK THE KEY

["No real offensive can be mounted in the desert unless the attacking force holds both Bengazi and Tobruk," said an informed source in London.]

The battles, which began with the sudden Axis advance late Tuesday night, were being fought out over a wide area as the tanks of both sides ranged the desert wastes like warships at sea.

Calls on Mexico To Declare War

MEXICO CITY (AP)—President Manuel Avila Camacho called on an emergency session of Congress today to declare Mexico at war with the Axis—the first declaration of war in her history—and place the nation immediately on a fighting footing.

In a Chamber of Deputies alternately gravely silent, then ringing with tumultuous cheers of "Viva Mexico," the President pledged all the resources of the nation to "collaborate energetically in saving America."

His appeal to the Congress and by radio to the nation declared that Mexican neutrality had been violated wantonly by the torpedoing two weeks ago of the Mexican ships Potrero del Llano and Faja de Oro.

An ovation of several minutes interrupted Avila Camacho when he said the "disloyal," sneaking and cowardly attacks had decided his government to "accept valiantly the realities" of the world situation and ask for declaration of war against Germany, Italy and Japan.

The formal declaration, expected next Monday, will bring the second largest Latin-American country into armed alliance with the United Nations.

Victoria Gets Canadian Legion 1944 Convention

WINNIPEG (CP)—Victoria was named convention city for 1944 by the Canadian Legion in convention here today.

Highlight of the day's proceeding was a resolution asking compulsory service in the Reserve Army for all men eligible and physically fit.

Major-Gen. L. R. LaFleche, associate deputy minister of the Department of War Services, in an interview following approval of the resolution, quoted Defence Minister Ralston to the effect that all training facilities available for the reserve army now are being used at the present time.

Gen. LaFleche said it "must be taken for granted that capacities made available are those believed to be required by competent authorities."

"Col. Ralston told us that his department had just increased the training facilities from a capacity of 10,000 men a month to 15,000 men a month," he said.

WOULD CHECK SECTS

Resolutions which received unanimous approval at the closing session of the ninth biennial legion convention urged.

Strict regulations in matters pertaining to Doukhobors, Menonites, Hutterites and other sects.

That arraignment of German prisoners be dealt with in a manner to protect guards from insolent demands.

Hospitalization for British repatriated prisoners of war.

The Legion urged the Dominion government to take "semi-military" organizations of a voluntary nature into the reserve army and place them under one military administration for all home defence purposes.

Bridges Ordered Deported From U.S.

WASHINGTON (AP)—Attorney-General Biddle today ordered deportation of Harry R. Bridges, west coast Congress for Industrial Organization leader, in a decision reversing the Board of Immigration Appeals, which had canceled the proceeding Jan. 3.

Biddle ordered Bridges sent to his native Australia at government expense.

Bridges, now free under \$3,000 bond, will be picked up on a warrant issued under today's order and presumably will be released under a new bond pending an anticipated appeal through the courts.

Biddle said that his ruling could be taken to the federal district court, the circuit court of appeals and the Supreme Court.

"DIM-OUT" NOW FOR DRIVERS—Soon these special highway dim-out signs will be a common sight along certain Pacific coastal highways where motorists will be warned "Restricted Light Zone—Use Parking Lights Only," to prevent reflections seaward. Emilie Kislinsky displays one of the first produced in San Francisco.

JAP STUMBLING BLOCK—Released from secret U.S. government files, the above hitherto unpublished photo shows an air view of Fort Drum, the "concrete battleship" in Manila Bay that helped play a heroic role in the five months' battle against the Japanese. The sturdy fort finally fell with Corregidor. (Telephoto).

Hart Refunds P.G.E. Issue

Lowest Rate on Record For \$16,000,000 Bonds

Premier John Hart of British Columbia announced today in Ottawa conclusion of negotiations in connection with partial refunding of a \$20,160,000 issue of Pacific Great Eastern Railway stock and debentures which carry provincial guarantee and which will mature July 15.

Of this maturity, part will be refunded by a new issue of \$16,000,000 worth of direct provincial obligations. The remainder will be repaid by sinking funds and an appropriation from "revenue surplus."

"After taking into consideration this transaction and certain proposed debt repayments up to July 15, 1942, the provincial gross debt, as at that date, will amount to \$158,060,000 or \$8,938,000 less than on Nov. 1, 1933," Mr. Hart said in a statement.

Incidentally, the annual interest requirements for debt have since Nov. 1, 1940, been reduced by \$1,492,000.

"This market transaction disposes of the last major provincial requirement and follows a fiscal year during which British Columbia collected an all-time record revenue estimated at \$38,545,000, which, after providing \$30,185,000 for current purposes, \$2,178,000 for debt redemption, and \$3,000,000 for unemployment relief will leave a revenue surplus of \$3,182,000."

Mr. Hart became British Columbia Finance Minister Nov. 15, 1933, and still holds the portfolio. The new \$16,000,000 issue will be 20-year bonds, payable in Canada.

Realizing conditions and market trends, the government of British Columbia adopted a long-range policy by reallocating its revenues, restricting expenditures to definite limits, deferring certain fixed charges and conserving cash resources. This policy has been most successful and has expressed the opinion that the debt problem was one beyond the ability of the government.

The cumulative effect of this financing is most gratifying to the Premier who directs attention to the fact that, since assuming the finance portfolio in 1933, he has been able to repay outright provincial debts amounting to \$53,175,000, to which sum revenue surpluses contributed \$12,391,000, current revenue \$6,409,000, and \$34,375,000 came from sinking funds specifically established to repay partly these obligations. In addition, he also repaid a \$1,000,000 provincial guarantee.

The new issue will be sold by a syndicate comprising the Canadian Bank of Commerce, Royal Bank of Canada, A. E. Ames & Co. Ltd., Mills, Spence & Co. Ltd., Dominion Securities Corp., Wood Gundy & Co. Ltd., McLeod, Young, Weir & Co. Ltd., and Bell, Gouinlock & Co. Ltd.

MAITLAND TRIBUTE—Tribute to the success attained by Premier John Hart in his refunding negotiations was paid by Attorney-General R. L. Maitland, acting Premier, today.

"I would like to say the Premier has done a grand job both from the standpoint of provincial credit and straight business. His trip east has been a great success," Mr. Maitland said.

Japanese Start Use of Gas Against Chinese

CHUNGKING (AP)—A Chinese government spokesman today accused the Japanese of using poison gas.

The spokesman said that in trying to cross the Chientang River near Kienfeng, about 30 miles north of Kihwa, in Chekiang province, the Japanese used poison gas which killed about one-third of the Chinese defenders.

He did not mention a number, but said "only some of our troops have gas masks."

The gas did not appear to be a particularly deadly type, he said. Tonight the high command stated the bitterly-contested city of Kihwa still is in Chinese hands after the failure of attacks by heavily-reinforced Japanese columns.

Both sides lost heavily in bitter fighting which raged throughout Wednesday around the walls of the Chekiang provincial capital, chief objective of the Japanese army's major sweep down the coastal area below Shanghai, said the communique.

The Japanese brought up 10,000 reinforcements, including artillery and cavalry as well as infantry, for the assaults which came from several sides but all of which were repulsed.

The Japanese had claimed capture of the city this morning, but this was denied here.

The Chinese communique admitted the invaders had captured Tangki, a railway town 16 miles west of Kihwa, but only after severe fighting in which 1,400 Japanese were killed.

It charged the Japanese had used poison gas in forcing their entry.

Pleasure Driving Lowers Category

Observations taken over the holiday week-end lead officials of the Wartime Prices and Trade Board, B.C. regional office, to issue a warning to motorists who hold the higher gasoline rationing categories and who have been using their cars for pleasure trips.

"Motorists who do this are defying the regulations and are laying themselves open to drastic changes in their categories," say board officials.

"They are granted these higher ratings because they say they need the extra gasoline for business purposes. This gas is brought to Canada at the risk of men's lives."

"If these drivers are so thoughtless as to use precious fuel for pleasure trips they are decidedly unpatriotic and will have to be dealt with."

Even police or fire chiefs who make use of their official cars for pleasure trips will lose the right to purchase new tires and tubes for their cars.

British Confidence Grows

VANCOUVER (CP)—Robert Nightingale, who arrived in Vancouver this week from Britain, said in an interview today: "The feeling of confidence throughout England at present is heart-lifting."

Final Bulletins

Mexico Already At War, Say Leaders

MEXICO CITY (AP)—The Mexican foreign office said late today that Mexico is at war against the Axis nations although the formal declaration of war is yet to be made.

German Sentenced

VANCOUVER (CP)—Kurt Goselt, 21-year-old German national, was sentenced to six months in jail by Magistrate Mackenzie Matheson today when convicted of failing to leave the Pacific coast protected area on or before April 1. Goselt was warned Feb. 17 he would have to leave, an R.C.M.P. official said.

Would Boost Loans

OTTAWA (CP)—Canada's mayors put their heads together today and tried to figure out how to keep a roof over the heads of their citizens.

This afternoon at the final session of the fifth annual conference of the Canadian Federation of Mayors and Municipalities, the civic leaders approved a resolution which recommends the National Housing Act be continued, and that construction of low-cost houses be further encouraged by increasing loans authorized under the act from 80 per cent to 90 per cent of the value of houses costing not more than \$3,500.

BEEF PROTEST

VANCOUVER (CP)—G. R. Matthews, provincial secretary of the Retail Merchants' Association, said today he had wired Donald Gordon, chairman of the Wartime Prices and Trade Board, urging "immediate action to relieve the very serious situation" regarding beef sales in Vancouver.

Mr. Matthews said meat packers have refused to sell meat dealers beef at the basic wholesale price and have notified them they will have to pay an increase of two cents a pound for deliveries.

(A spokesman for Vancouver's largest meat packing house said he knew nothing of the wholesale beef price increase and that his firm had no intention of raising prices.)

(At Ottawa Wednesday War-time Prices and Trade Board officials said some shortage of cattle for killing has led to reports of beef scarcity in eastern retail markets, but they anticipated no serious shortage of supplies.

Barrymore Weakens

HOLLYWOOD (AP)—Stimulants spurred the tiring heart of John Barrymore, but despite a slight rally the condition of the veteran stage, screen and radio star was described as "very critical" this afternoon.

2 Ships Torpedoed

WASHINGTON (AP)—A medium sized U.S. merchant vessel has been torpedoed in the Caribbean area and a medium sized Panamanian merchantman has been torpedoed off the Atlantic coast.

Announcing these latest victims of Axis submarine warfare, the Navy said this afternoon that survivors of both ships had been landed at U.S. ports.

Amends Claim

VANCOUVER (CP)—Frank Creasey, Victoria oil operator, today amended his statement of claim in a suit to recover \$3,768,056 damages by striking out the name of Wendell B. Farris as one of the defendants. The latter has been appointed Chief Justice of the Supreme Court of B.C. since the action was launched.

The suit will continue against victims of Axis submarine warfare, the Navy said this afternoon that survivors of both ships had been landed at U.S. ports.

HORSES TO RACE, BUT NO FALL FAIR

The war has made it necessary to cancel the Victoria Fair which would have opened at the Willows Sept. 13, but racing will be held Sept. 13 to 28, E. M. Whyte, president of the B.C. Agricultural Association, and W. H. Mearns, secretary, announced today following a meeting of the executive.

Cancellation of the Vancouver fair, shortage of labor on the farms and the war effort generally were factors causing the cancellation. It has been held for 81 years, the only other break in the continuity being the four-year suspension in the first World War.

With the Vancouver fair off, it was felt that eastern cattlemen would not go to the expense of sending stock over the mountains.

Horses will be available for the 14 days of racing. There will be no fall fair in Vancouver.

Germans Yield On Both Sectors Of Ukraine Line

By HENRY C. CASSIDY

MOSCOW (AP)—The Germans are being forced to give ground in both the Izyum-Barvenkova and Kharkov sectors, the Russians declared today, indicating the initiative on both those major battlefields of the Ukraine remained firmly in the hands of the Red army.

Front line dispatches said the Germans, blocked in their offensive in the Izyum-Barvenkova area, were trying to dig in on new lines, but that constant heavy pressure from the counter-attacking Russians was forcing them to fall back.

From their own freshly-fortified lines before Kharkov, the Russians said they were pushing forward. They battled fiercely overnight against German tank and infantry forces in both sectors and reported that before Kharkov one three-day battle had burned or otherwise knocked out 46 German tanks.

Russian accounts said the Germans had resorted to ruses in which some of their tanks flew Red banners and displayed Red stars and some of their troops wore Red army uniforms.

There also were several "psychological attacks," in which the Germans charged the Russian lines, firing wildly and shouting at the tops of their voices.

In one such case they tried the stunt three times, but finally fell back, leaving 1,000 dead "psychologists" on the field, the Russians said.

The Red army unit which broke this assault was credited with having repulsed 11 counter-attacks and then developed its own offensive in the Izyum-Barvenkova sector.

Japs Will Raid U.S., Stimson Warns

WASHINGTON (AP)—War Secretary Henry Stimson said today the War Department considered a Japanese air raid on the United States to be inevitable as a return blow for the attack on Tokyo and other Japanese cities.

The secretary told reporters the army was doing everything possible to meet the expected attack, which he indicated was anticipated on the west coast.

"Whatever happens, we shall not relax our most effective defense—our preparations for a major offensive," he said.

VICTOR RECORD HEADQUARTERS

Kent-Robert at 641 Yates claim the title not only because of their complete Record Library, but also by virtue of helpful, intelligent advice offered in your selections.

NO CONSCRIPTION FOR TIME BEING

QUEBEC (CP)—Justice Minister St. Laurent said in a letter, addressed to the Quebec East Liberal Association, that "there is no intention, for the time being, to bring in conscription for overseas service, and I am sure that the present government would bring in such a measure only if it were absolutely necessary for our own salvation."

Text of the letter, dated May 19 and addressed to M. Harvey, secretary of the Quebec East Liberal Association, was released today by Edmund Trudel, president of the association. Mr. St. Laurent represents Quebec East in the House of Commons.

OTTAWA (CP)—No more sewing machines for home use may be manufactured after June 1, except under permit. It was announced today by the Department of Munitions and Supply. Wholesale and retail sales of stocks on hand will not be affected. The new order will also prohibit the making of domestic sewing machine parts and cabinets except by permit.

Manufacturers will be granted permits to assemble prefabricated parts which they have on hand when the order becomes effective. Permits will be granted for making essential repair parts.

Himmler Directs Savagery As Heydrich Lies Wounded

Hundreds Reported Arrested By Nazis in Czechoslovakia

LONDON (CP)—German authorities subjected all Bohemia and Moravia to a fine-tooth-combing today in a hunt for the assassin of Reinhard Heydrich, No. 2 man of the Nazi Gestapo, and ordered every male over 15 in the protectorate to register with police by midnight tomorrow.

Czech sources in London expressed belief "hundreds must already have been arrested" in mass round-ups started Wednesday, immediately after Heydrich was wounded in a Prague suburb. The decree ordering all males to register with the police was broadcast by the Prague radio. It said German soldiers would shoot on the spot any man found without a registration card after the midnight deadline.

It could be assumed the Gestapo was proceeding with its inquiry and retaliation under extraordinary police measures at Prague, while Heydrich lay, at last reports, in serious condition from injuries suffered Wednesday in the attack on his automobile, either by bomb or gunfire.

TWO MEN MADE ATTACK

The attack was made in a Prague suburb on the highway to Berlin. It appeared in a report from Prague, while Heydrich was driving in a large car with high German officials. It was said only a few persons could have known the route and time that Heydrich set out from his headquarters.

Czech sources in London heard that the assassination was attempted with automatic rifles in the hands of two men between 30 and 35 years of age, one of whom escaped on bicycle or afoot. Some Swedish reports were to the effect that a delayed action bomb had been planted in the car or that a bomb had been thrown at it.

The German-controlled Prague radio announced an attaché case bearing the label of a small Prague hotel, the White Swan, had been found with another "object" after the assassins fled.

HIMMLER AT PRAGUE

The London Evening Star declared that Heinrich Himmler, chief of the Gestapo, had flown to Prague to take personal charge of the situation.

A Czech government spokesman, estimating the Germans had 15,000 Czechs in concentration camps in the protectorate, expressed fears they would be used as hostages, as in France.

Representatives of other governments here suggested that the shooting of Heydrich, who bore the misleading title of Reich's protector of Bohemia and Moravia, might touch off a wave of attempts against the lives of German bosses in other subjugated countries.

For that reason alone, it was believed, the Germans might "make an example of the Czechs."

Troops Now in India

Burma Army Reorganizes

NEW DELHI (CP)—Lieut. Gen. Sir Harold Alexander issued a special order of the day today saying "my command of the (British Imperial) armed forces in Burma has come to an end with the withdrawal of the army from that country."

"Our task has been carried out with little or no air support," he said. "The struggle has been hard and critical."

British forces shared the defence against the Japanese invaders of Burma with Chinese troops.

In a press statement, Gen. Sir Archibald Wavell, commander-in-chief in India and Burma, said that more than four-fifths of the troops which went from India for the defence of Burma had returned. Their numbers were not disclosed.

He added that supply and maintenance difficulties, not Japanese pressure, had forced Gen. Alexander to withdraw.

(There was no immediate indication what would become of Sir Harold. As Gen. Wavell is commander-in-chief for India, Gen. Alexander presumably could be absorbed into his command.)

Gen. Wavell praised the troops by saying that "their efforts saved India from what might have been a very dangerous situation."

ROADS NEEDED

"If we had had a satisfactory road from India into Burma, capable of standing up to the monsoon which is now beginning to break, there would have been no reason why we should not have continued to resist the enemy well forward into Burma," he said in a press statement.

He disclosed the government of India had begun a supply road into Burma but that "we had not been able to complete" it in time and up to standard to stand the monsoon rains. "And so it was not possible to move forward reinforcements or to relieve the troops in Burma with fresh ones."

WILL ATTACK

Gen. Wavell indicated that a counter-invasion of Burma by United Nations forces will be attempted some day. Meanwhile the main responsibility for defeating any Japanese thrust toward India "rests with the Indian eastern army, who have got their troops disposed and ready on the mountainous border of Assam."

The Happy Young Mother

Long before the arrival of baby she began to fortify her body by enriching the blood and building up the vigor of the nervous system. This was to enable her to withstand the strain she anticipated and to supply abundant nourishment for her child.

Dr. Chase's Nerve Food has long been known for its benefit to women under these circumstances, and she proved it to be most helpful in her case, both before and after baby's coming.

The addition of Vitamin B₁ to the formula of Dr. Chase's Nerve Food has made it more effective than ever as a preventive for many of the discomforts preceding childbirth as well as in recovering strength and vigor afterwards.

Almost any woman can tell you something about the benefits obtained from Dr. Chase's Nerve Food either by herself or friends.

Dr. Chase's Nerve Food FOR NEW PEP AND ENERGY

ward India "rests with the Indian eastern army, who have got their troops disposed and ready on the mountainous border of Assam."

He had seen every unit of the army from Burma.

"They are not what the Japanese are saying they are—a beaten army—in any way," he said. "On the contrary, they are in very good shape."

"Naturally after the hardships they have been through and the hard fighting they have seen there is a certain amount of sickness, but the great majority are fit and well."

"The picturesque story told by a member of the House of Commons of troops wading through snake-infested waters and living on unripe limes is fantastic, as they had full rations all the time."

"These troops had fought an outstandingly good fight for many months, unrelieved, unrested, unreinforced, and they naturally deserve an opportunity to rest and refit."

Kelowna Flooded, Homes Menaced

KELOWNA (CP)—Water was flowing across the streets of Kelowna today and a four-inch rise overnight in the water level of Mill Creek threatened many more homes in the residential section of the town.

Sewer manholes have been sealed to prevent the flood waters from flowing into the sewer system. Numerous basements were flooded and gardens ruined.

Acres of the flat country around the town are under water, and damage to vegetable and farm crops is expected to be high.

Bridges have been taken out in several places and farms in the Okanagan-Mission section seriously damaged by erosion.

High water conditions continued in various other parts of interior British Columbia today, with Grand Forks reporting several valuable farms washed away and people forced to evacuate their homes.

Reports from Cranbrook said roads were flooded and rivers and creeks are running higher than they have for years on the flats north of Cranbrook fields and two farms have been submerged but damage is reported to be negligible thus far.

At Penticton where water ran more than a foot deep through the streets earlier this week, causing some families to leave their homes, the situation apparently was considerably better. Drinking water has been chlorinated by order of the district health authorities.

Your electric clock keeps time because it is synchronized with power-station generators whose current alternates exactly 120 times every second.

U.S. Destroyer Survives

Brazil Fliers Sink U-Boat in Axis Pack

RIO DE JANEIRO (AP)—A high Brazilian source said today that one of the Axis submarines recently destroyed off the Brazilian coast was attacked and sunk by a Brazilian plane piloted by a Brazilian crew.

It was said that two American fliers, Lt. Harry Schwane and Sgt. J. G. Yates, first sighted and attacked the submarine off the northeast coast on the afternoon of May 23, at the same time calling for assistance from land-based Brazilian air force planes.

The Brazilian planes, arriving shortly, joined the attack and one of them sank the raider, the Brazilian informant said.

Brazil is not at war with Germany and Italy although she has broken diplomatic relations with the Axis.

DESTROYER SAFE

ST. LUCIA, B.W.I. (CP)—The United States destroyer Blakeley reached port here Wednesday night after coming safely through an attack by a wolf pack of Axis submarines which precipitated a naval battle.

The Blakeley, crippled by a torpedo in a first submarine attack off Martinique Monday, was making the 20-mile run from Fort de France, where she put in Monday, to this island under her own power when the enemy attacked.

The detailed outcome of this battle, other than the Blakeley's escape, has not been disclosed.

It was indicated, however, that one or more German submarines had been destroyed by United States planes, but whether in this encounter or in earlier operations following the first attack on the Blakeley was not made clear.

Naval authorities have been aware that a submarine wolf pack was operating in this area, hence the multiple attack on the Blakeley was no surprise.

This made it impossible to identify any submarine destroyed as the one which made the first attack Monday, when a torpedo launched from within French territorial water off Martinique crippled the destroyer, on regular patrol duty off the French island.

The Blakeley is known to have suffered loss of six men killed and 12 wounded (but the dispatch did not make clear whether in Monday's attack or the second one).

RESIDE BEARN

During her two-day stay in Fort de France, the port of Martinique, the Blakeley was tied up alongside the French aircraft carrier Bearn, which figures importantly in current negotiations between the United States and the local Martinique authorities looking toward effective neutralization of the island.

Members of the destroyer's crew reported the French were most hospitable.

SURVIVORS LANDED

RECIFE, Brazil (AP)—The arrival of the Argentine steamship Rio Igazu today with 52 survivors of the torpedoed British ship Barrade knocked one of the principal props from under the week-old Italian claim to have torpedoed and sunk a United States battleship of the Maryland class.

The Rome radio for several days had been broadcasting statements that the survivors picked up by the Rio Igazu were from the United States battleship.

It was disclosed here that the Barrade, a 5,072-ton freighter attacked May 17, some 450 miles off Martinique, sank within four minutes after a torpedo exploded in her engine room. The crew was picked up from two life boats the next day.

The survivors were identified by a maritime police inspector after the Rio Igazu had anchored in the harbor here and was boarded by officials.

The survivors were taken ashore in an official launch under police guard.

Shatterproof properties are imparted to ordinary window glass by the application of a new transparent, water-white liquid, which adheres in a thin coat, according to the manufacturer.

Heterogeneous tasks which involved doing a number of different things, proved less tiring than homogeneous tasks, in a work test given to both normal and superior college students.

Jailed After Operations

Untrained Man Worked Months As Surgeon

CHICO, Calif. (AP)—A former convict, without medical training, who posed his way into a high position on a hospital staff and successfully performed major operations, pleaded guilty Wednesday to practicing medicine without a license.

The 47-year-old man then was arrested on a charge of having concealed weapons in violation of California's gun law and was held in lieu of \$5,000 bail.

Joseph W. Williams, special agent for the state board of medical examiners, told the court Arthur Osborne Phillips, 47, alias Dr. James Herman Phillips, signed a 14-page statement admitting he had served eight months in prison and had practiced medicine in four states.

Williams said Phillips fooled his patients, his superior, most of the doctors in Chico, and army officers with whom he went fishing. Phillips invariably wore a military uniform with the insignia of the medical corps, and sometimes captain's bars on his shoulders.

His operations included abdominal, appendectomies and tonsillectomies.

"How he was able to perform them all successfully is what has us all baffled," Williams said. "Apparently his only medical training was working in penitentiary hospitals, where he may have watched surgeons operate."

Williams said Phillips came to California six months ago and got a \$3,500 a year job with the C.C.C. camp at Brush Creek.

LEADS NORTHERN RUSSIAN ATTACK—Gen. K. A. Meretskov commands Soviet offensive against Germans on northern front.

where he was known as "an operating fool" because he removed tonsils without any anesthesia. The C.C.C. boys said he liked to operate.

He left the C.C.C. camp two months ago to go to work as chief assistant to Dr. N. T. Enloe, operator of the Enloe Hospital in Chico, at \$250 a month with the privilege of engaging in private practice on the side.

He wrote some 200 prescriptions, "mostly stock prescriptions," he could copy from medical books," Williams said. Williams began investigating two weeks ago when he noticed the wrong signature on a prescription and discovered the real Dr. James Herman Phillips, an army surgeon in the first Great War, was in a hospital in Tennessee.

Phillips' wife, whom he married in Livingston, Mont., after getting out of the Idaho penitentiary, where he served three years for posing as a physician, said that after his arrest she learned for the first time that her husband wasn't a doctor and that he had a prison record.

Canadian 'Hypocrisy' Scored

No Sacrifices Made Yet Says Legion's President

WINNIPEG (CP)—Alex Walker of Calgary, president of Canadian Legion, British Empire Service League, told Canadians Wednesday night that "collectively" they have "no right to talk about making sacrifices until Canada shows that it is prepared to offer the blood of its men to defeat the enemy."

"It is no sacrifice to build ships, or tanks, or guns, or planes at good wages and reasonable profits," he said, in addressing the ninth biennial Legion convention banquet.

He said it is not sacrifice to pay high taxes when Canadians still have their homes to live and sleep in, and there is plenty to eat for everybody, nor is it sacrifice to get along with less gasoline, or wear pants with no cuffs. "Sacrifice can only be applied to one thing—life itself."

Warning that "until we have compulsory universal service, it is rank hypocrisy for us in this country to talk about making sacrifices," Mr. Walker said:

"Hasn't the great majority of Canadian people told our government that it can go full speed ahead and conscript all of us for service anywhere? What are they waiting for?"

"Let me give them this warning in all sincerity: The temper of the Canadian people is such that action must be taken without delay to implement a policy of total war."

Speaking of the Canadian army overseas, Mr. Walker recalled that casualties after 29 months of war numbered less than losses suffered by the first Canadian Division in the first Great War within six months after sailing from Canada.

He said that at a decisive stage the presence of a Canadian army

IGNORES LAVAL—Admiral Georges Robert, high commissioner for French West Indies, apparently ignored Vichy in negotiating with United States officials for immobilization of French warships at Martinique.

British Labor Vote

Not Lifting Ban On Communists

LONDON (CP)—The Labor Party conference voted 1,244,000 to 1,231,000 today to urge the government to remove the existing ban on the Daily Worker, but rejected by 1,899,000 to 132,000 a resolution asking its own executive committee to lift a prohibition on co-operation with the Communist Party.

Publication of the Daily Worker, a Communist newspaper, was forbidden in January, 1941, on the ground it had printed matter designed to foment opposition to Britain's war effort.

In a lovely debate preceding the vote on the Communist resolution, James Walker, member of Parliament for Motherwell, declared the Communists for years had been bitter opponents of the Labor Party.

At first, Mr. Walker said, the Communists labeled the war "imperialistic," but when Soviet Russia was attacked changed their tune and called it a holy war.

When delegates shouted he was insulting the Soviet Union, Mr. Walker asserted he was not talking about the Soviet Union but "about people who claim to be its friends."

PARTY TRUCE

As a result of a vote of 1,275,000 to 1,209,000 following a stormy debate at Wednesday's session, the wartime electoral truce among the major political parties stood today, but it was shaken. By that narrow margin delegates rejected an amendment which would have sent back to the executive committee a resolution urging maintenance of the truce and "general co-operation with the other parties participating in the government in promoting the return of government candidates at parliamentary by-elections."

Home Secretary Herbert Morrison, appealing for fair play, said: "If you are participating in a government you cannot give aid to the government and support candidates who are running in opposition to it."

"That is not the straight and honorable thing to do. The British electorate like straightness in their politics."

If Labor had refused to take part in the present government the party would have been guilty of political cowardice, he added.

Canadian Trade Agent Starts Work in Chile

OTTAWA (CP)—Arrival at Santiago of M. J. Vechesler, former Canadian trade commissioner in Lima, Peru, to open a new trade commissioner's office for Chile and Bolivia, has been announced by Trade Minister MacKinnon.

"The opening of a new office in charge of an experienced trade commissioner who has spent several years on the west coast of South America is in line with the policy of laying the foundation for future trade," Mr. MacKinnon said.

The Lima office, territory of which now will be confined to Peru and Ecuador, will remain for the present in charge of William G. Stapp as acting trade commissioner.

Add to Exports Needing Permits

OTTAWA (CP)—On and after June 1, wheat, germ and wheat germ middlings, oat groats or hulled oats, oat middlings, oat shorts and animal feeding will require an export permit from the export permit branch of the trade and commerce department before being exported.

Lamp and lantern chimneys of glass, demijohns of glass, carboys, bottles, decanters, flasks, phials and balls of glass will also require an export permit, Trade Minister MacKinnon announced.

Society Honors Rust Researcher

TORONTO (CP)—Names of winners of this year's medal awards for distinguished contributions to the fields of Canadian science and letters, and names of newly-elected Fellows were announced by Royal Society of Canada officials Wednesday.

The society is holding its annual meeting at the University of Toronto, with sessions extending over tomorrow and Saturday. Founded in 1882, the society numbers approximately 350 leading Canadian scholars and scientists.

Winner of the Flavelle Medal for 1942, awarded annually for original research of special and conspicuous merit in the biological sciences, is Dr. J. H. Craigie, head of the Dominion Rust Research Laboratory, Winnipeg.

The research work thus recognized was in connection with the control of wheat rust, a prairie plague which had cost western Canada farmers an average annual loss of more than \$30,000,000.

Prof. Watson Kirkconnell of McMaster University, Hamilton, is this year's winner of the Lorne Pierce Medal for outstanding achievement in imaginative literature.

The Tyrell Medal for work in the field of historical research and writing was won this year by D. C. Harvey, official archivist of the province of Nova Scotia.

Presentation of these awards will be made this evening at a general session of the society.

Heading the list of 27 outstanding Canadians who are receiving fellowships this year is Cardinal Villeneuve, Archbishop of Quebec.

Others named to the society include: Prof. Frederick M. Salter, University of Alberta, Edmonton; Rev. Dr. James S. Thomson, president, University of Saskatchewan, Saskatoon; Dr. Otis J. Todd, University of British Columbia, Vancouver; Dr. Andrew McKeller, University of British Columbia; Dr. Margaret Newton, Dominion Rust Research Laboratory, Winnipeg.

Morale Campaign

OTTAWA (CP)—J. G. Dielenbaker, Conservative, Lake Centre, Sask., in a question he has put on the House of Commons order paper, asks details of expenditures made in connection with a morale-building campaign being conducted in the aircraft industry by E. C. Hirst of Toronto. He asks whether any contributions made by aircraft companies toward the campaign have been returned.

Beef Men Win Fight for Higher Export Prices

By NORMAN M. MACLEOD

OTTAWA—Parliamentary observers today are crediting Agricultural Minister J. G. Gardiner with having won for the farmers of Canada a decisive, all-important victory in the government's policy of price-ceiling control.

The belief is based upon the solution of the highly controversial beef situation announced by the Wartime Prices Board.

That solution is regarded as establishing two basic principles of vital importance to Canadian farm producers:

(1) That Canadian producers should be able to secure in their domestic market a price equal to that any alternative export market will pay.

(2) That operations carried out by the Wartime Prices and Trade Board to maintain the price ceiling should not artificially depress the domestic market.

Recognition of these two principles by the price control authorities is said in federal circles as coming close to constituting a wartime charter for Canadian agriculture, and Minister Gardiner, who is known to have been fighting the farmers' battles in the negotiations of the past month or more, is given credit for having carried the day.

Official sources intimate the Federal Food Corporation, which the Wartime Prices and Trade Board is setting up to deal with beef, will be headed by Federal Food Administrator J. G. Taggart, a former colleague of Mr. Gardiner in the Saskatchewan government. The workings of the scheme are explained as follows:

SEASONAL BEEF PRICES

As an initial step the Wartime Prices and Trade Board will announce within a few days a seasonal schedule of beef prices which will do away with the existing ceiling and substitute a graded ceiling that will rise during the winter months when production of beef is more costly, and drop during the summer months, when it is cheaper.

Against the background of this policy of a graded ceiling, the projected food corporation will be given authority to compete with export buyers when the United States quota is open and divert to the domestic market as many animals as may be needed to maintain an adequate supply.

It will make such purchases at the export price, which the farmers will receive. In addition, it will undertake to maintain the ceiling price in the domestic market so long as the United States quota remains open. In other words, it will not be allowed to purchase cattle intended for export upon such a scale as would depress the domestic market if sold internally.

That the scheme will work out to the substantial benefit of Canadian livestock raisers is the belief of federal agricultural experts. They say the food corporation purchases of cattle, destined normally for the United States, but requisitioned to prevent a shortage in the domestic market, will automatically extend the time during which the Canadian quota in the U.S. (approximately 51,000 head quarterly) will remain open.

For these animals will have to be made up at a later date before the quota can be exhausted.

And the longer the quota remains open, farm experts here emphasize, the longer Canadian

USES PACIFIC RIGHT ALONG

From Mrs. L's letter: "Why do I prefer Pacific Milk? The first time I ever used canned milk I happened to buy Pacific. Then to see what others were like I tried them, but I returned to Pacific, and because I really like it I have continued to use it."

Pacific Milk has many patrons who use no other.

Pacific Milk

Irradiated and Vacuum Packed

producers have the double guarantee of (a) export prices for cattle designed for the export, and (b) top ceiling prices for cattle sold in the domestic market.

Beef Supply To Be Kept Even

OTTAWA (CP)—Some shortage of cattle for killing has led to new reports of beef scarcity in retail markets in eastern Canada, but no serious lack of supplies is anticipated, Wartime Prices and Trade Board officials state.

A week ago the board announced a plan had been devised to deal with recurring beef shortages. It provided that if domestic beef supplies were endangered by heavy shipments to the export market in the United States, steps would be taken to ensure that home requirements are filled first.

A further board statement covering details of the plan, and dealing with arrangements to make seasonal adjustments in beef prices to compensate the farmers for more costly winter cattle feeding, is expected shortly.

Officials said it seems probable the existing shortages of deliveries in some areas may be due in part to the heavy shipments already made to the United States under two quota periods of three months back, starting Jan. 1 and April 1, when Canadian beef cattle could be shipped to the United States under preferred duty arrangements. These quotas, of more than 50,000 head each, were filled with record-breaking speed.

The next quota period will open July 1, when the board's plans to protect the home market will become operative, if necessary.

"To bring the supplies of cattle marketed in Canada back to the levels required by the heavy civilian and armed forces consumption may take a little time, but it can be said the Wartime Prices and Trade Board is making every effort to deal with the situation," an informed source said.

Purge Master No. 2

HEINRICH HIMMLER, GESTAPO CHIEF, is said to have more corpses to his credit than any man alive except Hitler. He prepared the list of 397 names for Hitler's first blood purge. Since the war, his operations have been extended to occupied countries and his killings have been without limit. His victims number tens of thousands. As Germany's official murderer, he takes pride in his record of slaughter and terrorization.

Reinhard Heydrich has been Himmler's star pupil. Since last September he has been Nazi protector of Bohemia and Moravia. In his first two weeks in that office he had 250 Czechs done to death before Nazi firing squads. This was an achievement in the way of blood bath purges and it brought him honors. For him at the age of 38 there was created the special rank of general in the Security Police.

Now the righteous resentment of the Czechs has expressed itself in an attempted assassination of this purge-master. Heydrich was only wounded. Unfortunately, he will live to take special satisfaction in the cruelty and extent of the reprisals he will devise. Prague is doubtless in for an intensified reign of terror and slaughter. But defiance will not die. The more Himmler and Heydrich kill, the more their victims seem to rise up and oppose them and the oppression they represent. The gibbet and rifle can never subdue people who have known freedom.

How Russia Finances

THE OFTEN-ASKED QUESTION AS TO how Soviet Russia finances its war operations is answered in a recent news article in Izvestia. According to this, state loans have always been enormously popular in the Soviet Union. The Third Five-Year Plan loan floated last year to the amount of 9,500,000,000 rubles was subscribed to the amount of 10,945,000,000 rubles in a short time. In 1927, more than 6,000,000 persons subscribed to the first industrialization loan, but in 1941 the number of subscribers to the Third Five-Year Plan loan reached 60,000,000.

During the Stalin Five-Year Plan periods the working people of the Soviet lent their state 54,000,000,000 rubles. This mobilization of resources enabled the state to build factories, plants and machine tractor stations, to extend the building of cultural institutions and dwelling houses and to strengthen the country's defence.

This spring, Soviet patriots voluntarily and on their own initiative are collecting money for the Defence Fund. This corresponds in a way to the various war services in this country to which voluntary contributions are made. By April 1 to this fund the Russian citizens had contributed 2,300,000,000 rubles in cash, almost 2,000,000,000 rubles worth of bonds, various loans and valuables.

Altogether, war financing in noncapitalistic Russia is carried on much the same as it is in capitalistic countries with which we are more familiar. Politically, the Russians from our point of view may be unorthodox, but when it comes to financing they seem capitalistically orthodox.

The Two Dollars

NORMALLY, THE OVERVALUATION OF the American dollar would lead to an increase in exports from Canada to the United States and to a reduction in Canadian imports from the United States. The result of such a development would be an appreciation of the Canadian dollar. Under present conditions, however, it is doubtful whether the over-valuation of the American dollar would have much bearing on the Canadian dollar.

The United States is importing as large a volume of raw materials from Canada as is possible as an aid to the war effort. At the same time, exports to Canada from the United States are not only determined by the war but are regulated to a considerable degree by the two governments. Under war conditions, therefore, an over-valuation of the American dollar would not have the same effect on the currency of Canada as would be the case under more normal conditions. It is also questionable whether, under conditions existing at the moment, our government would be willing to permit its currency to appreciate in terms of the United States dollar. Ordinarily, the international value of the Canadian dollar is influenced by the values of the pound sterling and the American dollar. Now, however, the international value of the pound has no significance. Great Britain buys as much as possible from Canada, but the Dominion's gift of \$1,000,000,000 to the British government has greatly relieved the latter of the necessity of securing our dollar exchange.

The discount of the Canadian dollar has given our economy certain advantages. In the first place, exporters from Canada to the United States are receiving a higher amount in local currency. In the second place, Canada has been able to find markets in certain Central and South American countries. These markets might be jeopardized if the Canadian dollar were to appreciate rapidly in terms of the United States currency.

Nazis Vs. Russian Strategy

MAX WERNER, THE MILITARY CRITIC whose 1938 book, "The Military Strength of the Powers," is one of the few prewar books which stood the test of events, has written for the forthcoming issue of Red Book an article on Russian "Offensive Defence." In this he compares the Nazi and Soviet strategies, examining the German blitzkrieg theory of the lightning blow as against the Russian theory which ignores instantaneous effect in favor of massive strength and overwhelming power—power strong enough to survive the ups and downs of day-to-day fights. His article helps us understand what is going on around Khar'kov.

"German strategy," writes Werner, "is primarily strategy of prestige. It calls for victory, swiftly and without interruptions, not only for victory's sake, but for psychological reasons. The Russian war doctrine does not believe in strategic magic in one, or only one formula for victory. Nor is it a strategy of prestige. No easy and imminent successes are ever promised the people. No victories for the sake of psychological effects are ever won."

Abandoned by the modernized Nazi army as being insufficiently "dynamic," the old German army technique of "wearing down the enemy and grinding down the enemy" was taken over by the Russians. Russian generals do not expect to avoid battle, Werner says, but they will always sacrifice territory rather than manpower. The desire to preserve and save their armies dictates all Russian war plans.

Not all German generals were wrong in calculating the strength of the Soviet Union. According to Werner, one of them was right and that is why today he is a truly tragic figure. His name is General Field Marshal von Leeb, now in command of the Leningrad front. It was von Leeb's idea that Germany should start the war with an active defence. That it should first exhaust the enemy's armies and then launch a great counter-offensive. It was his recommendation to use offensive armies in active defence. It was his warning to be cautious in the use of force and to realize the importance of the battle of depth. Von Leeb's war plan for Germany is exactly the plan which Timoshenko and Zhukov adopted for the Soviet Union, and it is nothing short of a tragedy for von Leeb that today he is waging war after Hitler's plan. For, ironically, the Russian army is fighting him according to his own plan.

Call For Helpers

SAANICH FRUITGROWERS, FACED with a shortage of pickers, are advertising for boys and girls of high school age and up, as well as adults, to register now at the Chamber of Commerce for picking when the fruit ripens, beginning two or three weeks hence.

War services and industries have drained from the farm areas the workers who would normally be available for harvesting. Unless help is forthcoming for the growers much of the crops will go to waste.

Waste is always a social crime, and it is more than ever that in time of war. We have organized and passed laws to conserve and to salvage supplies of materials we have had on hand. It is even more important that we take full advantage of the new offerings nature is now preparing for us.

The fruit farms during the coming month or two will provide opportunity for work of national importance under healthful conditions for many desirous of doing their bit. Besides, with the rates of pay now guaranteed pickers, it will not be a matter of service without profit.

The war is young yet, and the opportunities for the Jap will be many, if his gusto for getting killed is on the level.

With that new and comparatively dead golf ball, either scores will be higher or the alibis will have to improve in proportion.

Members of a New York electrical union a few weeks ago voted for a 10 per cent payroll deduction from all their wages for war bonds. The idea has spread and U.S. Treasury officials now say nearly all unions are sponsoring at least a 10 per cent deduction program. United Automobile Workers are campaigning for a 20 per cent deduction among their members. Union leaders feel that with their members all working at high wages, now is the time for them to put something away for a cloudier day, or at least to cushion the effects of postwar dislocation. Not to mention about it being patriotic, too.

EARLY WAREND TALK

From Richmond Times-Dispatch
The amazing report is circulating, or is being deliberately spread by Axis agents, that the war will end in an Allied victory this coming September. Other such reports place the almost certain conclusion of the conflict as "before the end of this year."

Nothing could be more absurd. Such utterly unfounded nonsense can have no important result, other than to give us in this country a false sense of security, and to make us relax at the very time when we ought to be increasing our efforts. We have indulged in enough wishful thinking in this struggle already for us to be on our guard against anything quite so ridiculous as the notion that the war will end in three or four months with an Axis collapse.

Secretary of State Cordell Hull said, in carefully guarded language the other day, that "victory is not so far away as it seemed a few months ago," but there is nothing in this vague declaration to justify the conclusion that victory is just around the corner. It is only by the most determined and able length of the war.

Shirer

By WILLIAM L. SHIRER,
Author of 'Berlin Diary'

NEW PILLARS OF VICTORY

COLONEL BLAU, who struck the correspondent as being one of the ablest officers on the German general staff, and who has specialized in psychological warfare, has continually stressed the importance of integrating intellectual warfare with the other branches of war. Before the present conflict broke out he wrote:

"War has become three-dimensional. Today it is waged in military, economic and psychological spheres. Eventual victory, once determined by superior performance of arms alone, now rests on several pillars. Military efficiency is but one of them. The others are superiority in intellectual warfare and competitive power in economic warfare. Fully co-ordinated as they are with war aims and methods, these three elements together make the total war. They, in turn, demand an entirely new approach to the human element in war and a new type of organization if total war is to be prosecuted with the efficiency that makes for ultimate success."

Note that these are not the views of a harmless theorist but of a hard-boiled, realistic German officer, a veteran of the last World War, who played one of the leading roles in preparing German psychological warfare and in prosecuting it in this war.

Radio is the most potent of the weapons of the war on minds, but it is by no means the only one. During the campaign in the west, Hitler often resorted to the use of arms themselves, not to smash a military objective but by the sheer power of explosives, but to gain it by striking terror; that is to say, by dealing a psychological blow. Sometimes just the threat of terror by armed action achieved the objective. There were two excellent examples of this policy in the first week of the western campaign.

THE DUTCH OFFENSIVE

On May 15, 1940, five days after the offensive began, the German high command threatened to bomb Brussels unless all troop movements through the Belgian capital stopped immediately. The motive of terror in this threat was plainly evident in the wording of the high command's communique, which was undoubtedly written by Hitler. It said: "If the Belgian government wishes to save Brussels from the horrors of war, it must immediately put a stop to troop movements in the city."

The classic example of striking terror by armed action was, of course, the bombing of Rotterdam after the Dutch had surrendered. Even if the Dutch had not surrendered, there was no strictly military purpose in bombing the centre of the city, where most of the houses of business were located. The sole purpose of using dive bombers in this instance was to terrorize the Dutch to a point where they would surrender not only the city—all this they had done—but their whole country. And by threatening to wipe out the remaining three big Dutch cities, The Hague, Utrecht and Amsterdam, as he had wiped out Rotterdam, Hitler succeeded in obtaining a complete surrender. It was a good example of his long-worked-out strategy of terror.

Another example was the machine-gunning of refugees fleeing along the roads of Belgium and northern France. Probably no other factor contributed more to the lowering of the morale of the retreating Belgian and French troops than the sight of the terrorized refugees panicking up and down a highway after an attack by German bombers. If you were a soldier, it was bad enough facing the bombings yourself. It was unbearable to see your women-folk and your children being bombed by them. No one understood this more clearly than Hitler. That was why he did it—"with ice-cold calculation"—as he once said.

But, if Hitler learned how to strike psychological blows by the use of armed force, he also developed the technique of making psychological weapons do the work of cannon and tanks and troops and planes. Some days before the blow fell in the west on May 10, 1940, the German press and radio began a campaign to make the world, and especially the enemy, believe that the next German offensive would be in the Balkans. This was a classic diversion, but carried out by new weapons.

As German officers pointed out to us afterward: to have carried out this feat in the Balkans in past wars, they would have had to employ considerable numbers of troops, guns, tanks and planes. In the spring of 1940 the press and radio, aided by German agents in neutral capitals who fed the world press rumors about a German move in the Balkans, were sufficient. It was a significant accomplishment on the propaganda front.

It's easy to hold down any job—the hard thing to do is make it grow!

If you want to keep your good name, don't sew it in a new umbrella.

He was one of the highest salaried men in the business; that's why he was always practically broke.

Parallel Thoughts

The secret things belong unto the Lord our God: but those things which are revealed belong unto us and to our children for ever, that we may do all the words of his law.—Deuteronomy 29:29.

Religion, if in heavenly truths attired, needs only to be seen to be admired.—Cowper.

SIDE GLANCES

"That was a great idea of yours to write to all the girls back at college who are taking domestic science!"

'One for the Pot' Out

If you are wondering what to do about your tea ration—how to make it supply your family's demands—the man who can tell you is Cecile Browne of Ottawa, the Dominion government's official tea-taster, whose knowledge of the subject has been gathered over 30 years in business and government service.

Mr. Browne offers a few tips on tea-making to help you conserve your supply and derive the maximum of enjoyment from the beverage. In the first place, he says, you may ignore the practice of adding "one for the pot" after you have poured the right amount of tea for the required number of cups. Mr. Browne dismisses that as a superstition or a grandmother's tale or something.

And what's the right amount? The government expert believes one level teaspoon of tea for each cup required will give you the best results. Always take your water from the cold tap when you're making tea, he cautions.

HORSE MEAT

From Montreal Star

Premier Godbout when making his statement at the Legislative Assembly regarding horse meat, was 100 per cent right and then some.

In European cities horse meat is an appreciated dish and with good reason, too. There are numerous butcher shops in which no other kind of meats are sold. These shops are kept, as are all other butcher shops for that matter, with the utmost, rigorous cleanliness. Animals are quarantined and hang from spotless meat hooks. Meat cuts are displayed upon stainless marble slabs or enameled platters. No one is allowed to touch the meat as is so often done in our Canada. As a matter of fact, they are taught from childhood on "Don't touch food." No meat is displayed in artificial lit-up showcases, and as no other foods of any kind are sold in these butchereries, the meat is free from any foreign, spicy, nauseating odors.

So much for sanitary handling of horse meat. Veterinarians will tell you that horse meat is the kind of meat which contains the least germs of contagious diseases. This is the reason why chemists use "horse-blood" in most of their tonics and serums, which are approved all over the world by the medical boards.

Premier Godbout is perfectly right in all of his statements. Statistics have proven that 95 per cent of every animal has germs of T.B., even our beautiful western steers. Horse meat is claimed to have as little as 2 to 3 per cent T.B. germs and not even 2 per cent "meat worms." This is a fine record and is perhaps the reason why in most European hospitals horse meat is on the dieticians' list. Horse meat is used for both patients and the personnel, and very few kick about it.

Horse meat is easy to digest besides being deliciously tasty, juicy and tender.

B.C. CHICKENS GO ALL OUT

With all chicken hatcheries in the Fraser Valley producing on an "all out" basis, some 2,000,000 live chicks are expected to emerge before the close of the season at the end of June. The crop of B.C. eggs for hatching purposes, however, will be considerably more than this, as some allowance is made for infertility and hundreds of thousands of British Columbia eggs are sent annually to the prairie provinces for hatching.

He Never Took Her Out Until...

He was a fine husband in most respects but for months now she hadn't been able to stir him out of his chair in the evening. They never went any place—they were losing their friends. All the fun and comradeship was going out of their marriage. His excuse was always that he was "too tired"—until she got sick of hearing it. Then, one day when talking to her doctor about George, he suggested Dr. Williams' Pink Pills. George said he'd try them but didn't believe they could help him. To his surprise and last delight, soon he began to notice that his work did not tire him as it had. He slept more soundly—ate better and his nerves felt calmer. You'd never know George today—he's going ahead in his business—has come home full of vigor and is high good humor; he always ready for an evening's fun. Many a man like George can blame his feeling of weakness—of nervous exhaustion on a run-down condition of the blood. Don't wait—try Dr. Williams' Pink Pills now fortified with Vitamin B. They are wonderfully effective in building rich, red blood so necessary to vigor and strength and have helped thousands to get back "in the pink." Ask your druggist today for Dr. Williams' Pink Pills.

Esquimalt to Open A.R.P. Fund Drive

A drive for \$4,000 to buy an A.R.P. ambulance and other equipment will be opened by Esquimalt at 8 Friday evening with a variety concert at the Lampson Street School.

Reeve Alex Lockley said Wednesday night: "It is hoped that there will be a large crowd to give a good send-off to this important campaign, as funds are badly needed to buy equipment for all branches of A.R.P. work in Esquimalt."

The municipal council has set the objective of the campaign at \$4,000, and to reach this amount we will need the co-operation and assistance of every resident in our district," he said.

The concert Friday night will be presented by the Saskatchewan Concert Party. The program will include dancing, songs and instrumental music by the Victoria Girls' Pipe Band.

Other concerts will follow. Other ways and means of raising money are being planned, Reeve Lockley said.

A milking cow requires as much care in a year as an acre of apple orchard.

Typhoid germs may live as long as 60 days in shell oysters.

A snake begins to moult at the lips.

Record of Service

The war chest established by old boys of Upper Canada College for the purpose of sending comforts to those on active service overseas has reached \$1,850.

Twenty-one old boys have laid down their lives in this war. There are nine prisoners of war.

There are more than 600 old boys in uniform in Canada and overseas. Harold A. Roberts, president of the Upper Canada College Old Boys' Association in Toronto, is obtaining military particulars which are being recorded with respect to the various old boys now with the colors, and it is hoped that a war book will be published later on.

Kok-saghyz, Russian species of dandelion, has been added to the list of experimental plants from which America hopes to obtain rubber.

Tear gas, for testing gas masks, now is packaged in gelatine capsules similar to the ones that hold daily vitamins.

Japs Allow Golf In Shanghai

A letter, describing conditions in Japanese-occupied Shanghai shortly after Pearl Harbor, was received recently from Chungking by M. V. Wilkinson, 1989 Crescent Road. Written by T. S. Powell, the letter was dated Jan. 30, and came to Victoria via Australia.

Referring to Shanghai and the position of United Nations' citizens, particularly Britishers, trapped there by the Japs, the letter reads:

"As the Shanghai escapees: Major Hunt, Japanese liaison officer; Capt. Dewan Durie, recruiting officer, and Eric Watts, had to keep underground for several days before leaving, Major Hunt had not got a very clear idea of conditions in Shanghai after the middle of December, but here are one or two news items about Shanghai I have picked up here.

"Apparently, although the fight between the 'Peterees' and the Jap navy occurred at 4.30 a.m., the Japs did not enter the settlement until about 10.30 — that must have given lots of people time to burn their code books, papers, etc. They took over the American Club as their main headquarters, probably because it is so near the S.M.C., and the Shanghai Club as their No. 2 place. Our office building (Shell House) was also requisitioned the same day, and we were given 30 minutes to clear out! I suppose they chose ours because it is between the club and the cable offices, because I have not heard that they did any general requisitioning otherwise.

"All the British officials and British pressmen were impounded in the British Consulate and the Cathay Hotel; the Americans were similarly impounded in the Metropole. Nonofficial civilians all had to register and secure passes, but with these they are allowed to go where they please—not excluding golf, which strikes me as extraordinary. The S.M.C. police continue to function, as also do the cinemas, although the latter have to show a portion of Jap propaganda films. The North China Daily News ceased publication voluntarily, but the Shanghai Times and the Evening Post made their peace with the Japs — rather shamefully, I hope. However, in addition to Domei and Transocean they also publish Havas cables, including those from London and Washington correspondents, so perhaps they get some impartial news. There is no transport, which acts as an automatic curfew.

"The Japs requisitioned all stocks of major commodities, paying fancy low prices in military yen, which automatically depreciated the value of Chinese national currency, but, at least in December, foreigners were allowed to draw up to \$500 per week for themselves and \$40 for each servant from their own bank accounts. No radios have been seized yet, and they can listen in to London quite freely, but there is a warning of severe penalties if they are found and have told any news that they hear to any Chinese.

"Generally speaking the picture is very much what I imagined it would be — conditions in the concession being slightly better than in the S.M.C. areas."

MacArthur, Nelson Political Leaders

PRINCETON, N.J.—War is a sensational producer of new leaders, and the United States people at war only six months, have already discovered new presidential material. But for the war, some of these might have continued their work in relative obscurity.

Two new figures which the present war has pushed to the forefront are Gen. Douglas MacArthur and Donald M. Nelson. The fact that these two have grown in popular stature since Pearl Harbor is not news; but it is a newsworthy fact, revealed for the first time in a survey by the American Institute of Public Opinion (Gallup Poll), that both of them are today ranked among the top five by the public as presidential material for 1944.

Although General MacArthur has no interest in elective office, according to his friends, and although his military duties would probably preclude his running for office, the American public pays him the tribute of placing him at the top of the list of 18 presidential choices, excluding Mr. Roosevelt. The 18 comprise virtually all leaders who have been prominently mentioned in

recent years as presidential timber.

Next to MacArthur in popular favor as a presidential candidate comes Wendell Willkie, the G.O.P. candidate in 1940, and following him Thomas E. Dewey. The next two, ranking about equally so far as public favor is concerned are Henry A. Wallace and Donald Nelson.

The relatively high ranking given to Nelson, a newcomer to the political scene, is further proof that the public thinks the job he has undertaken as the czar of war production is being well done.

Political observers well know, of course, that a man's popularity does not necessarily pave the way for his nomination. The choice of candidate in a convention is determined to a great extent by what party leaders call his "availability." Events between now and election may make "unavailable" many present day leaders, and by the same token make "available" a whole new group.

There may, for example, be a recurrence of the 1940 situation when in the space of a few months a relatively unknown candidate, Willkie, came up to the front rank as the candidate most favored by the rank and file of Republicans.

Institute studies of that year showed, that while Willkie was the choice of only 3 per cent of the G.O.P. voters early in May,

he was polling 44 per cent and leading all other candidates in popularity as the actual nominee.

nating convention opened in late June. (World Copyright Reserved)

Quality Guaranteed "SALADA" TEA

SUGAR GASOLINE RUBBER and now COPPER

Government priorities on copper now restrict light and power extensions, new services, or additions, except to provide certain essential services!

Shortages of copper and other metals now affect prospective home builders or buyers of electric ranges and other equipment, in this way . . . Orders restricting the use of copper wire have been issued to all light and power companies in Canada, to ensure supplies for every type of war weapon . . . for wiring of bombers, ships or tanks and other vital services.

This means that before building a new home, or buying an electric range you should notify us in order that we may make application, if necessary, to the Metals Controller for permission to supply the additional service.

The Metals Controller says . . . "unless non-essential uses of metals are drastically cut the supply will be insufficient for war production and essential services. It is therefore the duty of every Canadian individual and company using metals and metal products, to rigidly conserve supplies so that the overall shortage may be minimized."

WARNING . . . Before you build or buy, or purchase an electric range, water heater, industrial motor or new commercial lighting equipment, check with us to see if you can get electric service!

THE "WAREHOUSE"

1110 GOVERNMENT STREET

Miss Doone Pidcock Married Today to Lieut. Geo. Dunlop

Bronze and purple iris made a charming setting in St. John's Church for the wedding today at 12.30 of Alice Verdun (Doone), second daughter of Magistrate and Mrs. George H. Pidcock, Courtenay, and Lieut. George Lyle Dunlop, only son of Mr. and Mrs. James L. Dunlop, Uplands. Canon F. A. F. Chadwick officiated, and Mr. Ian Galliford played the traditional wedding marches.

Given in marriage by her father, the bride wore a turquoise redingote dress fashioned with bracelet-length sleeves. Her sailor hat and accessories were of beige, while a corsage of gardenias and pink rosebuds completed her costume. A dusky pink afternoon dress with hat of the same shade, and wine accessories, was the choice of the bride's sister, Miss Bernice Pidcock, her only attendant. Pale pink rosebuds and heather formed her corsage. Lieut. Frank Milligan, Winnipeg, was best man.

Mrs. Pidcock wore a figured blue dress with navy redingote and wide-brimmed hat in the darker shade. White accessories and a corsage of rosebuds completed her ensemble. A navy flowered dress with navy redingote and matching hat was the choice of Mrs. Dunlop. Her corsage was of rosebuds.

Immediately after the ceremony Lieut. and Mrs. Dunlop left for Vancouver, where they will spend their honeymoon. For traveling the bride donned a loose-fitting beige coat with wolf collar over her wedding costume. On their return, Lieut. and Mrs. Dunlop will make their home at the Caroline Apartments, Cook Street.

HUNT-PEASLAND

The wedding took place Tuesday morning at 10.30 at the home of the officiating clergyman, Rev. Mr. Percy Willis, Belmont Avenue, of Nona Marguerite, eldest daughter of Mr. and Mrs. Harold M. Peasland of Victoria, and Able Seaman Thomas Herbert Hunt, eldest son of Mr. and Mrs. Norman Hunt, Sault Sainte Marie, Ont.

The bride was given in marriage by her father and wore a becoming pastel blue frock with white accessories and a floral veiled hat and a corsage of sweetheart roses and white sweet peas. Her only ornament was a locket, a gift of the groom. Her sister, Miss Rae Elizabeth Peasland, attended her, wearing a sheer frock of pastel pink with beige accessories, her headpiece and corsage being of carnations and maiden-hair fern. Mr. Clifford Giles, uncle of the bride, supported the groom.

The guests were served refreshments after the ceremony by Mrs. Percy Willis, and then the couple left on the boat for Vancouver for a brief honeymoon before the groom leaves for active service. Among the special guests was Miss Ruby Blyth of the Esquimalt House for servicemen.

Engagements

SMITH-DUNCAN

Mr. and Mrs. Alexander Duncan, Richards Trail, Duncan, V.I., announce the engagement of their younger daughter, Jeannie Helen, to Mr. Ernest Newman Smith, youngest son of Mr. and Mrs. F. W. Smith, Victoria. The wedding will take place June 13 at Duncan United Church, at 8 p.m.

and was named in honor of Queen Alexandra, who was known as the "Princess of Pity." Citizens are asked to help make this tag day a success as all equipment and supplies must be kept up to date and enough must be on hand for all emergencies as good health is the first line of defence in any community. The headquarters for the tag day is the Underwood Typewriting Co., 706 Fort Street.

TAKES OVERSEAS POST
From ballet dancer in a famous New York Corps to Red Cross transport driver was the leap a young Toronto woman took in her stride. Now, after 18 months as driver of ambulances, transports and station wagons, Mrs. J. W. Skinner will leave soon for England. She will assume the duties of secretary to the commissioner of the Canadian Red Cross in London.

THE ENGAGEMENT IS ANNOUNCED of Georgie Ray, eldest daughter of Mr. George H. Adam, Victoria Crescent, Ladysmith, and the late Mrs. Adam, to Mr. Esco Anthony Pello, son of Mr. and Mrs. Ralph Pello, also of Ladysmith. The wedding will take place in the latter part of June.

The Social CALENDAR

His Honor the Lieutenant Governor and Mrs. W. C. Woodward, accompanied by their son, Mr. Chas. Woodward, left yesterday for Cowichan Bay to enjoy a brief fishing trip, and will return to Government House Friday.

Mr. Robert W. Service, internationally-known poet, and Mrs. Service, have taken the George St. John home on Angus Drive during their residence in Vancouver. Mr. and Mrs. St. John have left to spend the summer in their Gambier Island cottage.

A double christening took place last Sunday morning at the Metropolitan United Church, Rev. A. E. Whitehouse, D.D., officiating, when the infant daughter of Mr. and Mrs. C. A. Price, 2610 Averbury Avenue, was given the names of Joyce Lillian, and the baby's 10-year-old aunt, daughter of Mr. and Mrs. A. Price, 1725 Newton Street, received the names of Velma Margaret. Tea for the immediate family was served at the latter's home.

In honor of Mrs. Royden Morris, who is leaving Victoria shortly to make her home in northern B.C., where her husband is stationed, Mrs. Goldwyn M. Terry entertained at the tea hour Wednesday afternoon at her home, 1015 Deal Street. Spring flowers in pastel shades were attractively arranged throughout the reception rooms and also centered the tea table, which was presided over by Mrs. Stanley Haynes.

Miss Maureen Dare, who will leave shortly to join the R.C.A.F. (Women's Division), was presented by the 3rd Victoria West (Catholic Women's League) Girl Guides with a handsome leather writing case at their recent meeting, in appreciation of her faithful service as captain during the last three years. Miss Dare will leave on Monday for Vancouver en route for Toronto, and will be accompanied as far as the mainland city by her mother, Mrs. E. J. Dare, Rockland Avenue.

Mrs. G. H. Scarlett, University School, entertained a number of young students to tea yesterday at the headmaster's residence, honoring Master David Bryn-Jones of Venezuela on his 11th birthday. Among the guests were the Misses Deirdre Bryn-Jones, Betsy Sawyer, Priscilla Reid, and Franny Sawyer of St. Margaret's School, and Masters Colin Jensen, Arthur Cornish, David Moilliet, Charles Rowlands, David Bryn-Jones, Potter Morrow, Kenrich Price, James Whitmore and Barry Vaughan of University School.

A delightful pre-nuptial party was held Monday evening at the home of Miss Nona Marguerite Peasland, whose marriage to Able Seaman Thomas H. Hunt took place Tuesday night. Relatives and friends called to wish the bride-elect future happiness, among the special guests being her maternal grandmother, Mrs. E. Leach of Royal Oak. The rooms were prettily decorated with spring flowers, under direction of the bride's sister, brother and cousins. Mrs. Peasland was assisted in serving by Mrs. Clifford Giles and the Misses Maryann Levings and Joan Beecher.

Mrs. C. C. Warren was hostess at a gift shower Wednesday afternoon at her home, 1745 Foul

St. John's A.Y.P.A. Names Officers

Miss Joan Brice was elected president of St. John's A.Y.P.A. at the annual meeting held Tuesday evening. Other successful officers were: Vice-president, Jack Sutton; treasurer, Douglas Crowe; recording secretary, Eileen Ellis; publicity, Eileen Walker; correspondence, Cora Mantou; monthly convener, Marjorie Bullock; Sunday evening entertainment of troops, Phyllis Hobbs; Mary Wilson, Bruce Cook and Glen Armstrong; missionary, bursary and Bible class, Jim O'Neil; Sunday school by post, George Douglas; pledge fund, Rita Huntley; dramatics, Daphne Gill; literary, Monica Brockhurst; discussions, Mary Milland; Fellowship Squad, Alfred Williams and Jack Sutton; sports, George Douglas; breakfast convener, Mollie Brinkman. Rev. George Biddle was chosen patron for the coming year; Lenora Trickett, elected honorary president, and Alfred Williams, honorary vice-president.

Rev. George Biddle congratulated the branch on their year's splendid record and presented the outgoing president, Wendy Perkins, with a past-president's pin, taking the chair as she made her report to the meeting. Conveners' reports were also heard. Leona Mitchell presented Wendy Perkins with a corsage and small boutonnières were given to Joan Brice, Daphne Gill, Eileen Wells and Marjorie Le Vack with a word of thanks for their services in office.

Thursday members will meet at the Victoria High School grounds for the softball game. Thereafter the branch will unite with the Bible class and meet Tuesday evenings at the same place.

A total of 153 articles were made by members of the Senior W.A. to the Royal Jubilee Hospital it was reported at a meeting Wednesday afternoon in the Nurses' Home. Mrs. Thomas Miller, president, was in the chair and Mrs. J. Phethean acted as secretary in place of Mrs. C. C. Raven. Mrs. P. E. Taylor reported \$4 received in dues and plans were made for the annual collection of dues at David Spencer's Ltd. Store from June 3 to 10 inclusive. Miss L. Mitchell presented a statement of expenses in connection with the recent nurses' graduation and all bills were ordered paid.

Garden Party to Help First Aid Station

To aid the equipping of its first aid station in Sector C, the ladies in that district will hold a garden party at the home of Mr. and Mrs. W. P. Unsworth, 975 Maddison Street, on Saturday, from 3 to 5.30. Tea will be served and a splendid program of games and sports is being arranged. The first aid station nearby will be open for inspection and it is hoped the public will assist in supporting this worthy cause.

Giant sea turtles lay their eggs by moonlight during June and July on Florida sea beaches.

AT A CALGARY WEDDING RECENTLY, the marriage took place of Miss Agnes Edna McKay of Victoria and James R. Folkard, R.C.N., of Calgary. The young couple, shown above, are making their home in Halifax, N.S. The bride is the daughter of Mr. and Mrs. Neil McKay, Happy Valley, V.I.

I'VE GOT A JOB TO DO

You bet I have... and I'm going to do it right! The Victory program includes good health for all... and that means eyes, too. Have your eyes checked now!

I.O.D.E. Will Equip A.R.P. Shelter

I.O.D.E. chapters in Victoria will undertake the equipment of an A.R.P. shelter, located in the Dominion Bank Building, this to accommodate 100 persons. This was decided at the monthly meeting of Municipal Chapter I.O.D.E. held Monday evening at headquarters, View Street. Mrs. A. H. C. Phipps, first vice-regent, presiding in the absence of the regent, Mrs. K. C. Symons.

Mrs. Phipps reported on Empire Day ceremony held May 23. Members were reminded of intercession service to be held at 11 o'clock at the First United Church, Sunday, May 31. Standard bearers to hold rehearsal on Saturday at 3 at the church.

At the request of Provincial Chapter future municipal meeting will be held the third Monday in the month at 2. A resolution from Camosun Chapter that the by-laws of Provincial Chapter be revised was endorsed, same to be forwarded to provincial educational secretary. Mrs. F. Beckett reminded primary educational secretaries to meet at headquarters June 8, at 10.30 a.m.; also displayed copy of poster depicting the Empire's manhood, which can be obtained from the rooms and sent to "adopted" schools. Mrs. E. M. Rayfuse was appointed assistant secretary, and Mrs. Webster, assistant educational secretary. The war convener, Mrs. A. A. Johnston, reported 323 articles, to the value of \$212.85, turned in during the month, also 30 leather and fur jackets sent to the navy in Esquimalt.

United W.M.S. Spent \$650,263 Last Year

TORONTO (CP) — A balanced budget in all departments of the United Church of Canada Women's Missionary Society was reported to the Dominion board at its annual meeting here Wednesday.

General fund current account receipts were \$686,411, an increase of \$1,199 from last year. Disbursements were \$650,263, compared with \$606,420 the previous year, the decrease coming because funds could not be sent to Japan, Korea and Japanese-occupied China.

A membership of 160,000 in 3,014 adult auxiliaries was revealed in the home organization report of Miss Winifred Thomas of Toronto, secretary.

Brazil is the world's greatest untapped source of fats and oils.

Sportswear Show At 'Molton Combe'

Smart tailored sports clothes, cleverly designed from long-wearing British wools, including popular classic sweater sets with their matching skirts, the kind of dateless outfits that far-sighted and fashion-conscious women are choosing during wartime, will be shown at the fashion show and tea to be held on Saturday afternoon, June 6, by the Solarium Junior League.

'MOLTON COMBE'

The lovely garden at the home of Mrs. Curtis Sampson, 1003 Newport Avenue, will be the scene of the show, tea to be served at tables on the lawn, and during the afternoon models will parade among the tables. The fashions are being shown through the courtesy of W. & J. Wilson, and the proceeds of the affair will go to assist the Queen Alexandra Solarium. In case of rain the affair will be held in the lower ballroom of the Crystal Garden.

Mrs. T. A. Stevenson is the general convener, with Mrs. R. B. Van Horne in charge of the fashion show, and tickets may be secured from members of the league. Table reservations may be obtained by telephoning Mrs. T. A. Stevenson at G 4324.

Red Cross Notes

LAKE HILL DANCE
The Lake Hill unit will hold an old-time dance at the Lake Hill centre, Saturday evening, May 30; all proceeds for the Red Cross. A popular orchestra will be in attendance and a grand time is assured.

Most WOMEN of "MIDDLE AGE"

38-52 yrs. old Suffer Distress At This Time

If this period in a woman's life makes you cranky, NERVOUS, blue at times, suffer weakness, dizziness, hot flashes, distress of "irregularities" —

Try Lydia E. Pinkham's Vegetable Compound — made especially for women — to help relieve distress due to female functional disturbances. Taken regularly — Pinkham's Compound helps build up resistance against such symptoms. Thousands upon thousands of women benefited! Made in Canada. WORTH TRYING!

Zamzam Survivors Helped in Berlin By Y.W.C.A.

TORONTO—Long periods of internment have varied effects on people, a report from the world's office of the Y.W.C.A., Washington, that has just been received by the National Council of the Y.W.C.A. reveals. One worker writes:

"There are still over 300 women in the camp I visit fairly regularly—the personnel changes little, new people come, transferred from other camps, while some are being released for special reasons—illness or age. The conditions in the camp are as good as they have been all along but the long period of internment is having a very different effect on people. Some get slack and let themselves go and so find life in the camp easier, while others suffer greatly from the lack of freedom and privacy, and get more nervous, dissatisfied and unhappy the longer they stay."

NOW IN BERLIN

The report dealt with the release of 16 women from the camp, who had been informed by the authorities that they were to proceed to Berlin and wait there until they could return to their own countries. In this group were women with Canadian, South African and Greek passports. The Y.W.C.A. worker continues:

"Knowing nobody in Berlin they had come to the Hospiz, where I live, and there most of them had been able to get rooms, while others were in a hotel across the road."

They arrived on Sunday when no administrative offices were open, and so needed me for various pieces of practical advice. Only two knew a little German. I had to act as interpreter. Bread tickets were the common need. I had a sufficient reserve to supply them with these and as they had all brought some of the contents of their Red Cross parcels with them, their evening meal was secured. How their faces brightened as they talked about how wonderful these parcels were! Some of them had very few belongings as most had been lost when the Zamzam went down. I had just received a present the previous week of three English Bibles and so gave these. Then my task was to find a hat for one and stockings for another and so forth.

"They are now occupying themselves in different useful ways and are quite interested in their new experiences—yet they are longing for the day when they may again return to their first homeland, or the land where some were to have made their home and already families are anxiously waiting for them," the report concludes.

RIGHT AND WRONG WAY—Mrs. Elizabeth Brown, right, president of the Toronto Housewives' Consumer Association, demonstrates to her daughter the proper way to wash hose. When washed stockings are hung straight down as at the left, runs develop; when the stockings are pinned at both the top and the toe, as at the right, runs are given the run around. Mrs. Brown was the first Canadian woman invited to Ottawa at the government's expense to tell officials the Canadian housewives' problems in wartime and to suggest solutions.

P.T.A. Activities

SIR JAMES DOUGLAS P.T.A.

Mrs. Reginald Cox, 1462 Fort Street, was hostess Tuesday evening to a joint meeting of the adolescent and junior study groups of Sir James Douglas School, which took the form of a social evening. Mrs. W. H. Yardley, president of the P.T.A., addressed the meeting. Games and contests were played, under the direction of Mrs. H. G. Woollett and Mrs. W. C. Hudson. Mrs. W. H. Wilson rendered two delightful solos, accompanied at the piano by Mrs. Jamie Cameron. During the evening presentations were made to Mrs. J. S. McDonald, leader of the adolescent group and Mrs. J. R. Stone, leader of the junior group. Both study groups will reopen in September.

MONTEREY P.T.A.

Mr. Forrest L. Shaw of the Hard-of-Hearing Club, showed motion pictures demonstrating the audiometer at the meeting of the Monterey Association on Tuesday in the school auditorium. With the audiometer it is possible to test 40 children at a time in a very few minutes. Mrs. W. W. Bell, president, thanked the speaker and his assistants. A letter of thanks from the St. John Ambulance Nursing Division for the recent donation was read; also several cards from boys overseas thanking members for the gifts of cigarettes. Mrs. George Wilkinson and Mrs. L. R. Harper reported on the P.T.A. convention. Miss Hazel Giles and Miss Francine Simister delighted the audience with solos. Mrs. Wallace R. Gunn accompanying. Mrs. Wilkinson and Mrs. Lumsden served light refreshments. The annual meeting will be held on Tuesday, June 9.

FEW FIRES YET IN B.C. FORESTS

Since the beginning of the year 57 fires have occurred in British Columbia forests against 143 during the similar period last year, according to the weekly fire statement issued by the Department of Lands.

During the week ending May 23, 15 fires were reported, 13 of which were extinguished. Five were still burning.

To date 15 fires have been reported in both Vancouver and Fort George regions, 14 in the Kamloops area, 10 in the Nelson district and three in the Prince Rupert section.

—Photo by Meyers. Mr. and Mrs. Jack Elliott, who were married at Oak Bay United Church early in May. The bride was formerly Miss Doris Faulkner.

Nanaimo War Price Representative Named

The B.C. office of the Wartime Prices and Trade Board announces the opening of sub-regional offices at Nanaimo, in the Parkin-Block on Commercial Street.

C. B. McAllister, who joined the board early in its operations as assistant to C. W. Brazier, enforcement counsel at the Vancouver regional office, will be the Nanaimo representative.

Mr. McAllister is a B.Sc. of the University of Alberta. His assistant will be W. Carmichael, a well-known resident of Nanaimo. He was for nine years with the Hudson's Bay Company as buyer of house furnishings and radios in their Vancouver, Edmonton and Saskatoon stores.

Since leaving the Hudson's Bay Company, Mr. Carmichael has been associated with the Fletcher Music Company at Nanaimo. The Nanaimo office will be opened early next week.

The Esquimalt Community Club will meet Monday, June 1, in the United Church Hall. A donation shower will be held for the coming garden party to be held in July.

Big London Kitchen Directs Cooking Of Ration Foods

By ALAN RANDAL Canadian Press Staff Writer

LONDON (CP)—Right in the heart of London, seven floors above street level, is one of the most important kitchens in Britain.

It is big and spotless. Its white tile shines amid the gleam of scoured pots and pans. It is the most savory place in the big Ministry of Information Building.

Here the government has gathered the experts of cookery to give guidance to a nation eating from rationed stores of food. They work ahead of the growing season so as to advise how best to use supplies available, together with fruits of farm, orchard and garden.

"Every recipe is planned carefully from a health point of view," said Miss J. E. Macleod as she whipped through a bunch of food charts. A Glasgow girl, she, like most Scots, understands food. She studied it in Scotland and the United States and is in charge of the experimental kitchen and food advice division.

RECIPES ADVERTISED

After recipes have been worked out they are put into practice in the kitchen and tested. Then they are given the public in paid newspaper advertisements. The M.O.I. calls them "food facts."

One of these items is potato and watercress soup, suggested for use in the warm spring and summer weather because of the tonic qualities of its vitamin C. To feed four people use a pound of potatoes, two bunches of watercress, one pint of vegetable stock, one pint of household milk, pepper, salt and one teaspoonful of margarine.

Scientific adviser to the food ministry is Dr. J. C. Drummond. In the early days of the war he drew up the first "basic" diet which everyone should have. He is principally a vitamins man and had a hand in the five-year effort to isolate vitamins A and E.

His wife helps him in his work and aided in producing a book, "The Englishman's Food." In her research in this connection she found the popular beauty diet of women of Napoleonic times was boiled beefsteak and half a pint of bottled ale for breakfast.

Urges More Liberal Immigration Trend

MONTREAL (CP)—Senator Cairine Wilson, chairman of the National Refugee Committee, told members of the National Council of Women in annual meeting here Thursday, that Canada should have a more liberal immigration policy, and told of the contribution that skilled artisans and craftsmen of Europe could make to the country.

Senator Wilson said new industries which have sprung up in Canada through refugee enterprise have been successful.

"These people who by reason of faith, or belief in democracy, have been forced from their homes, possess a courage and steadfastness that cannot help but enrich the country," she said.

Mrs. George Cockshutt of Brantford, Ont., said that "salvage today has become an essential part of the national war effort."

Charles Laferle, national director of salvage, was present at the session, and said that "salvage today is not the garbage of yesterday, but may be the bread and butter of tomorrow."

"Everyone must become salvage conscious," he said.

Would Set Up Women's Bureaus

MONTREAL (CP)—Women are taking an increasingly important part in the task of directing the strength of individuals into the channels where it is most needed in wartime, Mrs. W. A. West, director of the women's division, Department of National War Services, told the National Council of Women at their annual convention Wednesday.

Every woman in Canada could serve her country in some way, Mrs. West added, because the battle line extends to the home front where a woman's leadership is important.

"But there must be no overlapping of services, and the best way to prevent this is by setting up a volunteer bureau in every community."

Such bureaus would discover and satisfy the need for volunteer workers and would find out the amount of training needed

Take a Furlough From Work Come Back Doubly Efficient

This year vacations must be
considered in connection with
Canada's wartime picture. The
strain of increased production
and longer hours in business, on
farms and in war industries
makes a period of relaxation
necessary for tired-out workers.

Your 1942 holiday is really a
"civilian furlough" that brings
you back to work mentally and
physically rejuvenated, ready to
tackle the great tasks that will
be asked of you during the rest
of the year.

You don't need to go far from
home to find an ideal vacation
spot. Vancouver Island offers
you everything from safe sand
beaches to mountains where the
snow glistens all year round. You
can fish in streams, lakes or on
the sea. You can hike on wood-
land paths or over rugged moun-
tain trails. You can swim in
warm sea water or at the foot
of a waterfall in a jewel-like
mountain lake.

This all fits with Canada's war-
time picture for Vancouver Is-
land is at your own front door.

No matter where you go you can
conserve on gasoline and rubber.

In fact, if you like to leave the
"old bus" at home you can reach
nearly every island holiday spot
by a short trip on bus or train.

Remember! June days are per-
fect days for holidaying! Get out
and away while the fields are
green and the beaches not too
crowded. Resorts and auto
camps are open now, ready to
give you a real vacation. List
the following on your must see
program:

Down Sooke Way! A deli-
cious guest house, situated in a
well-kept acreage of fruit trees
and farm fields. Private water-
frontage. Good swimming and
boating. In fact, you'll find every
outdoor sport you enjoy at SEA

Remember — RATHREVOR
BEACH. It's an amazing place.
Silver white sand. Safe for chil-
dren. Cabins, camp sites, open
air fireplaces. You'll be agree-
ably surprised when you see it.

We suggest if you are planning
a vacation at WALL BEACH
CAMP that you write early for
a cottage. This camp is gaining
in popularity by leaps and
bounds. Quiet and restful situa-
tion. Grand beach for children.
Good swimming and fishing.

Another popular spot. WING'S
CAMP at Parksville. Modern
cottage accommodation. Good
beach. Close to village and up-
to-date stores. Right on bus
route.

In the same breath, there is
EDGEWATER PARK at Parks-
ville. Good cottages and cabins
in tree acreage. Right on the
beach. A general favorite.

A good third for Parksville
would be HARRISON'S BEACH
CAMP. Well known to many
Victorians. You'll like the
friendly atmosphere here. Splen-
did for children.

At Courtenay, the gateway to
the Upper Island's many vaca-
tion spots, there is the GREEN
LANTERN AUTO CAMP. Right
on the river. Grand cottages.
Well furnished. Good fishing
right at the door.

On the famous Comox Penin-
sula where the sun shines and
skies are blue, you discover THE
ELK HOTEL. A really Canadian
Inn with a welcome for everyone.
Delicious food. Comfortable
rooms. A grand view!

To visitors in Victoria. There
are many first-class hotels where
you will find good accommoda-
tion. THE DOMINION HOTEL,
rank high. You'll find both these
fine hotels ideally situated in the
centre of everything. For auto
camp accommodation in a beau-
tiful garden setting you'll rave
over for many a day, there is
VICTORIA AUTO COURT. Clean,
comfortable cottages. And when
I say clean—I mean clean!

TO CONTINUE FIGHT

"A word of commentary only:
I will continue, in the limits
permitted by the laws of this
country, to fight against conscrip-
tion and to defend the rights of
my compatriots as long as I re-
main in liberty."

John S. Bourque, U.N., Sher-
brooke, later rose on a question
of privilege, and urged that "this

House do something to have
some action taken against Dr.
Shields of Toronto, who every
Sunday ridicules French-Cana-
dians."

(Rev. T. T. Shields, D.D., is
pastor of the Jarvis Street Bap-
tist Church in Toronto.)

Charles Bullock, Liberal, Sher-
ford, said that "I think this House
has nothing to do with the action
which may be taken, nor which
has been taken against the mem-
ber for Lotbiniere.

Speaker Valmore Bienvenue in-
tervened to say that no debate
could take place on points of
privilege, and the House resumed
its regular work.

During the Wednesday after-
noon session of the assembly, Mr.
Chaloult said that "if English-
Canadians were treated in Que-
bec the way French-Canadians
are treated in the other provinces
"there would be an outcry, and I
would be one of the first to pro-
test."

French-Canadians, the member
said, hold only 18 per cent of the
civil service jobs in Ottawa, and
received only 11 per cent of the
salaries. "Some have said that
French-Canadians are incompe-

tent, but if that is the case it
would be time to sound a cry of
alarm to those entrusted with
education in the province and to
the government."

In Quebec he added, the minor-
ities are free to organize their
own educational system, but in
the other provinces French-Can-
adians are not accorded the same
privilege.

WASHINGTON (AP)—A gi-
gantic pooling of economic re-
sources on a world-wide scale,
first for the winning of the war
and later for the winning of the
peace, is indicated in lease-lend
agreements consummated, or in
process of negotiation between
the United States and more than
a score of anti-Axis countries.

The broad principles of lease-
lend assistance and co-operation
in the achievement of victory and
establishment of a healthy world
economy after the war were laid
down in the agreement signed
last February by Great Britain
and the United States.

Tuesday the draft proposal for
a similar agreement with Soviet
Russia was handed to Ambassa-
dor Maxim Litvinoff by State
Secretary Cordell Hull, and Wed-
nesday the draft of a proposed
lease-lend pact with China was
transmitted to Chungking
through Foreign Minister T. V.
Soong, who is in Washington.

Discussing the proposals of-
fered Russia and China, Mr. Hull
told reporters the provisions gen-
erally are the same as those al-
ready entered into with Britain.

TO WITHHOLD BILLS

The agreement with Britain
provides, among other things,
that the precise and detailed
terms of settlement of lease-lend
accounts shall be deferred "until
the extent of the defence aid is
known"; that full account shall
be taken of all aid rendered to
United States, as well as aid ren-
dered by the United States, and
that final terms and conditions of
settlement shall be such "as to
promote world trade rather than
hinder it."

In the final settlement of
lease-lend accounts less emphasis
is likely to be placed on striking
a bookkeeper's balance than on
co-operative measures to get
world economy on its feet again.

United Nations Lease-Lend Plan To Pool Wealth

Chaloult 'Not Surprised'

Says Charges Arise From 'Silence' Plot

QUEBEC (CP)—Rene Chal-
oult, Liberal member of the Que-
bec Legislative Assembly for
Lotbiniere, said in the provincial
lower house that he was "not
surprised to hear" that the Do-
minion Department of Justice
planned to institute action against
him under Defence of Canada
Regulations.

Mr. Chaloult, who had urged in
the house Wednesday afternoon
that French Canadians be given
their share of jobs in the army,
in war industries and in the civil
service, said that "during my
speech I was told that proceed-
ings will be instituted against
me. I wanted to verify this news
before making a statement.

(Justice Minister St. Laurent
told the Commons Wednesday
afternoon that action "would be
taken as a result of statements
contained in a speech Mr. Chal-
oult made in Montreal May 19.)

"Ottawa has thus, in effect,
given in to the clamors of the
English press, which controls the
economic dictatorship and which
demands my arrest," said Mr.
Chaloult. "I am not at all sur-
prised. It is the result of a plot
engineered quietly to reduce to
silence, by twisting the facts, the
voice of those who express the
sentiments of the Province of
Quebec.

TO CONTINUE FIGHT

"A word of commentary only:
I will continue, in the limits
permitted by the laws of this
country, to fight against conscrip-
tion and to defend the rights of
my compatriots as long as I re-
main in liberty."

John S. Bourque, U.N., Sher-
brooke, later rose on a question
of privilege, and urged that "this

House do something to have

tist Church in Toronto.)

Charles Bullock, Liberal, Sher-

USELESS TO RESIST

'USELESS TO RESIST'—OR SO THEY SAY—Copying Nazi propaganda methods, this is a sample of a leaflet dropped on doomed Hongkong by Japs to "soften" resistance. Note the un-Mongol-like features of the Japanese soldier, whose cleated boot is poised over the tattered Briton.

Racing Results

BEAUMONT PARK—Horse racing results here Wednesday follow:
First race—Five furlongs:
Tome (Lead) — \$13.60 \$6.70 \$2.30
Is 1 is (Thompson) — 4.10 2.40
Jaquita (Gilbert) — 2.60 1.20
Time, 1:13 3/4. Also ran: Lariche, Leo's Brandy, Credentials, Navy Blue.
Second race—Six furlongs:
Solmar Lad (Day) — \$15.40 \$8.60 \$4.30
Verse (Meade) — 8.80 4.20
Happy Lark (Wahler) — 2.60 1.20
Time, 1:13 3/4. Also ran: Hard Center, Ernie Host, Rutigli, Sun Ginger.
Third race—Seven furlongs:
Felt Slipper (Scott) — \$22.00 \$12.00 \$6.00
Muffled Drums (Roberts) — 7.00 3.50
War Port (Robey) — 2.60 1.20
Time, 1:24. Also ran: Mac's Cottage, Daywal, Sapido, Dandy Dever, Night Heron, Glen Ha Mona, Little Cottage.
Fourth race—Five furlongs:
Ocean Wave (Hark) — \$9.00 \$5.30 \$2.50
Saberd (Woolf) — 6.70 4.80
Time, 1:13 3/4. Also ran: Red Rose, Reper's Blade (Arcaro), 1.30
Time, 1:24 3/4. Also ran: Gay Wing, Blazier, Delicatessen, Double, Eite, Mighty Master, At Wish, Reep, Bourbon Town, Prince Belire, Don Bingo II, Gull.
Sixth race—Mile and a half:
Vagraney (Malley) — \$2.20 \$1.50 \$2.20
Mackard (James) — 4.30 2.50
Copperette (Gilbert) — 2.60 1.20
Time, 1:44 3/4. Also ran: Red Rose, Reper's Blade (Arcaro), 1.30
Time, 1:24 3/4. Also ran: Gay Wing, Blazier, Delicatessen, Double, Eite, Mighty Master, At Wish, Reep, Bourbon Town, Prince Belire, Don Bingo II, Gull.
Seventh race—Mile and a half:
Fairfax (Thompson) — \$2.20 \$1.50 \$2.20
Eternal Peace (Arcaro) — 4.30 2.50
Sil Wal (Widened) — 2.60 1.20
Time, 1:44 3/4. Also ran: Red Rose, Reper's Blade (Arcaro), 1.30
Time, 1:24 3/4. Also ran: Gay Wing, Blazier, Delicatessen, Double, Eite, Mighty Master, At Wish, Reep, Bourbon Town, Prince Belire, Don Bingo II, Gull.
Eighth race—Mile and a half:
Sweepstake (Zuffelt) — \$5.00 \$3.50 \$2.30
Tru Knightest (Lindberg) — 4.20 2.50
Armer Bekker (Witzel) — 2.60 1.20
Time, 2:31 3/4. Also ran: Resolute II, Dark Michael, Silver Bicket, Steady Ca.

Stolen bases—Miller, Boston, 8.
Pitching—French, Brooklyn, 4.0.

Ray Robinson Tackles Servo

NEW YORK (AP)—The winning streak of 120 straight fights that Ray Robinson has put together runs smack into the batter the Harlem skinny man respects more than any other in the welterweight division tonight. This little fellow is Marius Severino, known to the trade as Marty Servo. He's a baby-faced kid out of Schenectady, a cousin of ex-lightweight champion Lew Ambers. In their first meeting, he came closer to putting a period to Ray's string than any other fighter the Harlem hammer has met. The current punch-party is a 10-rounder and the thing is so "hot" in these parts that promoter Mike Jacobs expects some 15,000 of the faithful and a gross gate within shouting distance of the \$40,000 mark by the time they go to the post. Robinson is a 1 to 4 favorite. This corner tabs him to win the decision.

Five Years' Ore

TORONTO (CP)—At the present rate of operations the main ore body will be through in five years, Eldon E. Brown, general manager of Sherritt Gordon Mines, told shareholders at the annual meeting. Last year, he continued, a new copper bearing structure was located 3½ miles from the main structure and drilling showed one lens containing 1,250,000 tons grading 1.5 per cent copper, too low a grade to mine. Recent work has located a second lens of somewhat better grade ore. Since the beginning of the year, accounts payable have been reduced by \$97,000 through settlement with the British Ministry of Supply regarding the method of accounting, due to increased costs. The company is installing a plant at a cost of \$125,000 for production of zinc concentrates and it is expected the first shipment will be made June 9, next, shareholders were told. The postponed meeting of the Victoria Hand Weavers' Guild will be held Monday at 8 in room 410, Union Building, to hear Mr. French speak on "Silkworm Culture." Business will be conducted after the address.

Sports Mirror

By PETE SALLAWAY

BOX LACROSSE fans are looking forward to one of the best games of the current season tonight when the champion James Bay outfit meet up with the Jokers. First place will be at stake, and just to make sure his boys would be at their best, Manager Ted Menzies put the Jays through a stiff practice last night. "They have been playing terribly and I want to try and pull them out of the slump," was the way Menzies described it to us in calling the practice.

Comparing the two lineups, the Jays should win, but one can never call the shots with that joker crew. As one lacrosse fan pointed out to us: "That Jokers' team looks like nothing on paper, but still they make the going tough for the other clubs." Must be some extra fighting spirit or something that coach Jimmy Smith has instilled in his players.

Here's a new one on the ball players. Harry Grayson, noted American sports scribe, says of them: "No other class of athletes bobs up with all this as readily as baseball players." Grayson continues:

"That is what made Mickey Owen so unusual when Hugh Casey's inside pitch, which would have given Brooklyn a second victory in the world series, slithered off the butt of his glove. It was an epic of the diamond when the catcher said, simply: 'I missed the ball.'"

"Once when a ball went between Smead Jolley's legs as the White Sox outfielder squinted into the sun, he explained that he lost it in the glare, added that he never could play the sun field."

"Many a fine ball player offers excuses when there is no need for them."

"Sam Rice, the grand Washington outfielder of years back, was

this type. Once Rice forgot to close the gate, as the ball players say, and a well-hit ball to right field got through him with the tying run on second and the winning run on first."

"Bucky Harris, then playing second base, dashed out into short right field and shouted: 'To the plate! To the plate!'"

"Rice picked up the ball, whirled and threw as Harris turned and squatted to watch the play at the plate. The ball struck Harris on the back of the head."

"Why," Harris asked Rice, after he had cooled off in the clubhouse, "didn't you throw that ball to the plate?"

"I did throw it to the plate," replied Sam.

"Then, tell me, came back Harris, 'if you intended that ball for the plate how come it nearly knocked my head off?'"

"It was this way, Bucky," explained Rice. "Those fans in the right field bleachers spit. When I got hold of the ball, it was covered with spit. And the spitter broke!"

"Bucky Harris, fell off his stool."

"They still talk of George Selkirk telling Joe McCarthy that he picked up a stiff neck standing in front of a fan at a bar in St. Louis."

"Ball players, to hear them tell it, generally leave an air-cooled Pullman car with colds in their arms, shoulders and necks."

"Phil Rizzuto is the latest Yankee to frankly state that his cold was his own fault, traceable to his sitting on the Yankee Stadium grass while perspiring."

"But Mickey Owen, Twink Selkirk and Little Scooter Rizzuto are exceptions."

"The great majority of ball players, regardless of how much ability they possess, don't believe in taking the blame for anything that may happen to them."

War Hits All Sports

More Athletes Join

By SCOTT YOUNG

TORONTO (CP)—If an enterprising sports writer set out to write a daily column in which he would use only sport news with a military or patriotic angle he wouldn't have any trouble.

Almost every item worth using has the war effort—service or civilian—somewhere in its background, if not, foreground. For instance, here are the first four items off the top of today's pile of material:

Government regulations banning trap-shooting probably hit 81-year-old Harry Bush's daily routine harder than any other Canadian. Reason: Harry, now a Vancouver resident, started trap-shooting in Kansas about 1880, when live birds, glass balls and metal targets were used. The clay pigeon was strictly an experiment at that time. Since, he has been on several championship teams. Last year on his 80th birthday he had a perfect score—25 straight hits.

Stan Rokjek, Montreal Royals' star shortstop, was brilliant in the first game of an Empire Day doubleheader but was replaced in the second game. The customers thought manager Clyde Sukeforth must have gone off his noggin. But it wasn't Suke's fault. Rokjek had to catch a train for Buffalo to be sworn in as a cadet in the United States Army Air Corps. He'll return to Royals and play until he is called.

KALETA IN NAVY

Harry (Calgary Albertan). Scott reports that Alex Kaleta, rookie forward who made quite a stir with Chicago Black Hawks last season, will be in the navy soon.

You all know the revolting old story about a baseball team which hit 14 triples without a man crossing first base. (It was a girls' team.) Here's something along that line, but new and true: Bert Podolski, a gal softball pitcher who used to mow 'em down around Moose Jaw, is with an R.C.A.F. team in a Moncton League.

All other members of the air force team are men, so are all members of the other teams in the league. But she's eligible, because as Airwoman Podolski she is a member of the personnel at No. 8 service flying training school near Moncton.

Toronto Maple Leafs had better let someone really score on pitcher Nick Strincevich or Pittsburgh will want him back. Strincevich has pitched four times for Toronto since he came here on option. . . . His record: three shutouts . . . and Wednes-

'Old Fitz' Has Perfect Spirit

NEW YORK (AP)—Last Sept. 11 a battered, bewildered and slightly panicky bunch of Brooklyn Dodgers rolled into St. Louis for a three-game series with the tenacious Cardinals.

The Brooklyn had just dropped a doubleheader to Chicago Cubs, and the defeats had sliced the Dodger lead to one slim game. And a one-game lead at that stage of a race is nothing to lean back and coast on.

The Dodgers just had to win that one, and Leo Durocher knew it.

So he called on old fat and 40. And when the hectic afternoon was over the Dodgers were leading by two games and again were their own cocky selves.

Old fat and 40 was Freddy Fitzsimmons, and we like to remember that game as one that tells more than any other just the kind of pitcher he was. The kind of pitcher who had what it took when he had to have it.

Durocher's faith in the short-armed, broad-beamed chucker is a tribute to those traits that will make old fat stuff a bang-up coach. The guy just inspires confidence and is the type the young fellows will listen to respectably.

Always alert and with more zip than most players half his age, fat Freddy is the gent who keeps the Dodgers on their toes. The Brooklyn scene wouldn't be quite the same without the big fellow.

Victoria Lawn Courts Will Open Saturday

Official opening of the grass courts of the Victoria Lawn Tennis Club will take place Saturday afternoon at 2.

Eight courts will be thrown open to the members and their friends and the playing surfaces are reported in good condition.

For the opening afternoon's play the club is extending the courtesy of the courts to members of the armed forces. Good percentage of the membership this season will be members of the services stationed here.

day night he held Montreal to three hits in his fourth appearance.

Longshoremen Meet Navy Nine

Royal Canadian Navy and Longshoremen, senior A men's softball squads, will clash for the second time this season at the Athletic Park tonight at 6.45.

In the first meeting between the outfits the Navy marked up a victory, but since that time the Longshoremen have strengthened their club and are confident of turning the tables. The Navy club was undefeated last season.

At Victoria West Park, Coach and Horses will oppose Douglas Tire in a B section contest at 6.45.

Palm Dairies and New Method Laundry chalked up victories in C section games played Wednesday night. Palms defeated North-western Creamery 14 to 7, while the laundrymen turned back K.V.'s 8 to 2.

Scores follow:

K.V.'s . . . 000011000-2
New Method . . . 03102020x-8

Batteries—Crockett and Simpson, Turner; Gosnell and McCorkall.

Northwesterns 240000001-7
Palm Dairies-61020113x-14

Batteries—Patterson and Atkinson; Bryant and Barr.

Lacrosse Fight For Top Place

There should be a hot time in the Sports Centre tonight when the only two undefeated teams in the Victoria Lacrosse League pay respects to each other for the first time this season.

James Bay, three consecutive wins to date, and Jokers, two wins and a tie, will be out to ruin each other's record. Game starts at 8.30, winner to take over first place in the league standings.

James Bay and Senator midget teams will meet in the preliminary at 7.

Jokers are having their best season ever since that name rang from customers' mouths three seasons ago. The blackshirts used to deal in consecutive losses but with Jimmy Smith at the helm they seem to have taken a brighter outlook on life.

James Bay, who haven't had an easy game this season, and have had to come from behind with a flock of goals in the last quarter of two games, to pull them out of the fire, expect plenty of trouble. Ted Menzies put them through a strenuous workout Wednesday evening. He believes it isn't proper for provincial champions to lose a game to a team that couldn't touch them in past seasons.

At tonight's battle the crowd will get a comparative slant on goalies "Buzz" Long and Bill Andrews, currently the two leading rubber blockers in the league.

James Bay senior line-up follows: Long, Doherty, McKeachie, Costello, Cullin, Duncan, Thomas, Travis, Manson, Anderson, Ball, Ferguson, Woodhouse, Nicol and McCorkall.

So he called on old fat and 40. And when the hectic afternoon was over the Dodgers were leading by two games and again were their own cocky selves.

Old fat and 40 was Freddy Fitzsimmons, and we like to remember that game as one that tells more than any other just the kind of pitcher he was. The kind of pitcher who had what it took when he had to have it.

Durocher's faith in the short-armed, broad-beamed chucker is a tribute to those traits that will make old fat stuff a bang-up coach. The guy just inspires confidence and is the type the young fellows will listen to respectably.

Always alert and with more zip than most players half his age, fat Freddy is the gent who keeps the Dodgers on their toes. The Brooklyn scene wouldn't be quite the same without the big fellow.

New Date for Schools' Meet

The interhigh school track and field meet originally scheduled for May 29 has been postponed to Wednesday, June 3, Y.M.C.A. officials announced today. Under the direction and sponsorship of the "Y", the event promises to produce stiff competition.

Schools competing will include Victoria High, Oak Bay High, University School, Brentwood College and several of the Saanich high schools. Two competitors from each school will be allowed to take part in each event. Two races have been added to the original list, a 100-yard dash for girls and a 440-yard relay for girls.

Entries are being accepted at coach Archie McKinnon's office in the Y.M.C.A., and will close at noon Saturday. Officials emphasize the importance of handling these entries in on time.

Victoria High School is the present holder of top awards in the annual track feature.

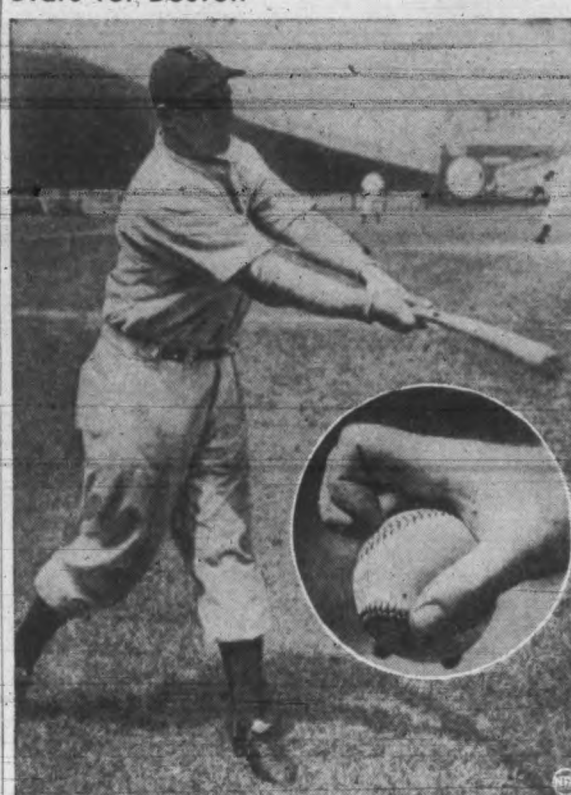

Arizmendi Kayoed

OAKLAND, Cal. (AP)—Baby Arizmendi's handiers threw in the towel Wednesday night when the going got tough for their veteran fighter, and Earl Turner, young Richmond, Cal., welterweight, scored a six-round technical knockout in the scheduled 10-round feature of a navy relief benefit show.

Until the sudden finish, which brought hoots from a crowd of 8,000, the match had moved on a reasonably even keel.

The kidney mechanism which produces high blood pressure when not functioning properly is also a guard against low blood pressure.

Stars for Boston

Jim Tobin hits home runs and, with knuckle ball, gives Boston Braves kind of pitching responsible for their fine showing in the current National League baseball campaign. Tobin recently smashed three home runs in one game.

Bonham 30 Game Winner

The most-coveted pitching goal in the major leagues is 30 victories in a season. It is much more valuable, and a whole lot more difficult to obtain, than a no-hitter.

The feat hasn't been accomplished since Dizzy Dean had his great season for St. Louis Cardinals in 1934 and it hasn't been done in the American League since 1931 when Robert Moses (Lefty) Grove won 31 for Philadelphia Athletics.

After Bob Feller traded his baseball togs for a navy uniform in the winter there didn't seem to be a pitcher anywhere with even a remote possibility of gaining the pinnacle this season—or next, either.

Yet Ernie (Tiny) Bonham, big right-hander ace of New York Yankees, apparently has found the right trail and his chances look about as good as Feller's ever did.

Bonham bagged his seventh straight victory yesterday, 8 to 3, from the Athletics. The crowd at Yankee Stadium, where he hadn't been scored upon all season, was hoping he would get his fifth shutout. He missed this, but he pitched an expert seven-hit ball game without allowing a single walk.

The big fellow is no strikeout specialist such as Dean or Grove or Feller, but his "forkball" is something the opposing batters usually pop up and his control is amazing. In the seven games he has pitched this season he has walked only five batters.

He may not win 30 games, because there are only 24 weeks in a season and he may not work often enough. But with a team like the world champions behind him he is not likely to lose many and at present he is right on the beam—approximately one-fourth the season.

HENRICH HOMERS
The Yanks gave Bonham a five-run boost in the fourth inning Wednesday, three of the runs coming on a homer by Tom Henrich, and this enabled the champs to coast to their 16th victory in 19 games.

Boston Red Sox came out of a slump to overpower Washington Senators 10 to 1 in a night game. Oscar Judd limited the Nationals to six well-spaced hits before a crowd of 17,000. Rookie John Pesky collected three of Boston's 13 hits and scored twice.

Chicago's usually weak-hitting White Sox collected 17 hits at Cleveland, but had plenty of trouble taming the Indians 9 to 7. Three of the Tribe's 10 hits were homers and it remained for relief pitcher Joe Haynes to win his own games for the Sox by singling across two runs in the eighth inning.

St. Louis Browns backed up Johnny Niggeling with extra-base hitting to beat Detroit Tigers 5 to 2. Walt Judnich led the attack with a homer, a double and a single.

Brooklyn Dodgers increased their National League lead to six games by belting Boston Braves 4 to 1 with a three-run ninth-inning rally that settled a hurling duel between Whit Wyatt and Jim Tobin.

Wyatt rationed five hits and Tobin scattered seven and the only runs till the final frame were Billy Herman's homer for Brooklyn in the first and Seabury Slits'

Arena Closed Until October

Victoria skating fans can put their blades back in storage until October. H. B. Olson, president of the Arena, announced today he had closed down the plant, after operating it for five days during the course of a test.

"The test proved entirely satisfactory, although we still have a few minor changes to make—to ensure our patrons of first class ice for next season," Olson said.

"Work will commence immediately on the construction of the new water cooling system, and also on certain parts of the piping, and with these jobs completed we will be set to reopen the plant around Oct. 1."

Oak Bay Track Champs Decided

New track and field champions of the Oak Bay public schools are Sheila Whittemore, Moprey School, and John Gelling, student at the Willows School. They captured their titles in the annual meet held Wednesday.

In capturing eight out of a possible nine points Miss Whittemore registered victories in the three-legged race, high jump, bunny hop was a member of the winning 440-yard relay team and finished second in the 100-yard dash.

Gelling turned in wins in the 100 and 440-yard sprints, high jump and placed third in the three-legged event.

Representatives from the Monterey School captured the tug-of-war from the Willows, two pulls to one, to lift the R.W. Mayhew Cup.

Prizes in the form of War Savings Stamps and ribbons were presented by Mrs. D. Campbell, wife of a member of the Oak Bay School Board and Mrs. R. Shipley.

Capt. F. G. Dexter was in charge of the program.

VICTORIANS WIN QUALICUM GOLF

QUALICUM BEACH.—Frank J. Eves, Colwood Club, and Eileen Pendray, Uplands, both of Victoria, won the honors in the annual Qualicum Beach Hotel golf tournament here last weekend.

Eves took possession of the Qualicum Beach Hotel Challenge Cup while Miss Pendray captured the Fordham Johnson Trophy.

Other prizewinners follow: Men's runner-up, Capt. R. H. Hodgson; 18-hole winner, Dr. John Sturdy; runner-up, Lorne Campbell; 18 holes, R. R. Taylor; runner-up, Dr. E. N. East; hidden hole, F. Lindsay; par competition, Harry Clarke; women's runner-up, Mrs. A. E. Osborough; 18-hole leader, Betty Ellis; hidden hole, Betty Ellis; par competition, Mrs. Osborough. All the prizes were in the form of War Savings Stamps.

The tournament concluded with a dance in the hotel.

Cy Shillito Stops Navy With 6 Hits

Hitting the ball hard to back up the six-hit flinging of little Cy Shillito, Victoria Machinery Depot turned back the Royal Canadian Navy 9 to 2 Wednesday night for its fourth straight victory in the senior ball league.

It marked the first defeat for the bluejackets and dropped them into second place, leaving the shipyard crew all by themselves in the driver's seat.

Shillito, working fast, heaved a smart ball game. He struck out six and gave up only one base on balls and that late in the contest. The former Chalmers boy, except for the first inning when the Navy scored its two runs, kept the opposition hits well scattered and was seldom in trouble.

Paced by playing coach Laurel Harney with three hits for six and Shillito with two for four, the V.M.D. collected 13 hits. They chased starting pitcher Stan Davies to the showers in the 7th, to be replaced by Slim Jinks. Davies had control trouble all evening.

Navy got away on the right path with a pair of runs in the opening frame. McHoy was safe on Babe Work's error. He stole second and advanced to third when Dovey doubled to centre.

After Thompson fanned Menard lined a hit through the box, sending both runners scurrying across the rubber.

V.M.D. came back with a pair of runs themselves in the second. Dunc laced a double into centre field and trotted down to third on a bad throw from the outfield. Strouger hit safely through third scoring Dunc. Williams got a life on Thompson's bobble at third. Euerby walked, loading the sacks. Shillito fanned. Strouger scored on Work's fly out. Harney beat out a weak hit to infield, filling the bases again. Restell popped to shortstop for the third out.

After getting two out and two

No Upsets In Pro Golf

Snead Fires Birdies

ATLANTIC CITY (AP)—Sammy Snead put the crasher on Sammy Byrd more or less as scheduled and Corporal Vic Ghezzi, the defending champion, found his uniform no protection Wednesday as the Professional Golfers' Association championship moved through the opening set of 36-hole matches.

The day was devoid of upsets. Where 32 players teed off in the morning, only 16 remained, and included in the list of survivors were all of the really top contenders. Ghezzi's defeat at the hands of Jimmy Demaret of Detroit was not unexpected, as Vic has been too busy in recent months learning the manual of arms to keep his golf game in tune. He went down 4 and 3.

Most of the scant first-day gallery followed the match between Snead and Byrd. Up to the noon hour, the former New York Yankee outfielder made Snead hump. But as they threshed into the afternoon round Snead's vastly greater tournament experience began to tell and in the end he closed Byrd out decisively, 7 and 6.

Byrd, playing in his first P.G.A. title event, shot a 71—one under Seaview's par—in the morning and wrestled par to a draw in the afternoon, but he was no match for the siege gun Snead.

Byron Nelson of Toledo, who has all the other competitors so frightened they expect him to jump out from behind doors, literally toyed with Harry Nettleblad of Avon, Conn. He alternately complained of an upset stomach and his drives as he disposed of Harry by a score of 5 and 4.

Cpl. Jim Turnesa proved his great form in the qualifying round was no idle rumor as he bounced E. J. "Dutch" Harrison by 6 and 5. Harold "Jug" McSpaden disposed of Sam Parks Jr., the former open champion from Pittsburgh, 7 and 5. Joe Kirkwood, the trick shot artist, ousted Jimmy Thomson, the long driver, 4 and 2.

and 4. Yet he was four strokes under par for 33 holes.

HOGAN WINS EASILY

Ben Hogan, considered the man to beat after Nelson, had a similar easy trip through the first round. The Hershey, Pa., star trimmed Ben Loving of Long Meadow, Mass., 7 and 6, shooting an almost identical score with Nelson.

Ry Laffoon of Miami, Okla., who retired from steady competitive golf several years ago to clip oil coupons, shot the hottest golf of the day in eliminating Vic Bass of Keokuk, Iowa, 12 and 11. Only twice in P.G.A. history has a player won by so one-sided a margin. Laffoon scored a six-under-par 66 in the morning and was three under par for seven holes in the afternoon.

Harry Cooper, the medalist, had his followers worried when he lost his touch and went three down to Mike Turnesa in the morning, but the Minneapolis veteran pulled himself together to shoot unbeatable golf after lunch and win out 3 and 1. Craig Wood, the national open champion, had a first round 68 and didn't let up a particle in the afternoon as he subdued Rod Munday of Toledo, 5 and 4.

Cpl. Jim Turnesa proved his great form in the qualifying round was no idle rumor as he bounced E. J. "Dutch" Harrison by 6 and 5. Harold "Jug" McSpaden disposed of Sam Parks Jr., the former open champion from Pittsburgh, 7 and 5. Joe Kirkwood, the trick shot artist, ousted Jimmy Thomson, the long driver, 4 and 2.

and 4. Yet he was four strokes under par for 33 holes.

Hogan Wins Easily

Ben Hogan, considered the man to beat after Nelson, had a similar easy trip through the first round. The Hershey, Pa., star trimmed Ben Loving of Long Meadow, Mass., 7 and 6, shooting an almost identical score with Nelson.

Ry Laffoon of Miami, Okla., who retired from steady competitive golf several years ago to clip oil coupons, shot the hottest golf of the day in eliminating Vic Bass of Keokuk, Iowa, 12 and 11. City Nears \$100,000 In Red Cross Campaign

Greater Victoria campaign headquarters in the Red Cross drive reported early today \$1,500 was needed to push the area over the \$100,000 mark set as a second objective in the current appeal.

Collections up to this morning were slightly over \$96,500.

A request went out from headquarters today to those who have not yet been approached and who are willing to contribute to the

society's funds for the relief of human suffering to communicate directly with headquarters at 916 Government Street. The office may be reached by telephoning B 3513.

On the basis of support accorded to date, officials expressed confidence the \$100,000 total would be exceeded when the drive officially closed Saturday. Donations will be received up to June 5 at the society's headquarters.

for reconsideration of all aspects of its significance.

During the oil lands amendment debate Mr. Hanson read the charge of a western correspondent that new oil drilling equipment is lying idle in the midst of a Canadian oil famine because of "discriminatory legislation" in Alberta.

Liguori Lacombe, Canadian, Laval Two Mountains, Que., sought to move an adjournment to discuss "a matter of urgent public importance," but was ruled out of order by Speaker James A. Glen.

The senate, discussing a bill providing for a \$100,000 grant by the Dominion government to the city of Ottawa, turned down a proposal to have a senate committee study the relationship between the city and Dominion. The bill providing for the Ottawa grant was passed.

An interim supply bill providing \$19,952,241 to cover ordinary government expenditures for one month was passed by the Upper House without debate.

Seventy-five postage stamps honoring scientists are in the collection of one philatelist; only one woman—Madame Curie—is represented.

Shelve Alberta Oil Lease Move

OTTAWA (CP)—Resources Minister Crerar's bill to ratify an Alberta government agreement with oil land lease holders involving an increase in royalty rates has been placed temporarily on the shelf after meeting strong opposition in the House of Commons.

Conservative House Leader Hanson, Manley J. Edwards, Liberal, Calgary West, and A. H. Bence, Conservative, Saskatoon, led the attack in the House Tuesday, as they had the day before.

They contended it was a violation of the contracts entered into by oil companies when they obtained their leases, that its legality was questionable, and that by passing the bill Parliament was playing "an appeasement policy" toward the Alberta government which could not obtain its ends alone.

Near the close of the short Wednesday sitting Mr. Crerar yielded to the suggestion of Mr. Hanson that the bill be put aside

FORGE DECISIVE AIR BLOWS AGAINST AXIS—Extensions and closer interlocking of details of the United Nations' air training will result from the conference of 14 nations, including Canada, just completed at Ottawa. The more than 100 delegates designed "complete and overwhelming control of the air in every theatre . . . against every possible enemy." Leading the conference assembly in the senate chamber in the Dominion capital were Prime Minister King, left at head of table and Hon. C. G. Power, right, followed clockwise by Hon. Robert A. Lovett, U.S. Assistant Secretary of War for Air; Sir William Glasgow,

Australian High Commissioner; Major-Gen. T. H. Shen, commander of Chinese Air Forces in the United States; Hon. Daniel Steen, Norwegian Minister; Lieut.-Col. C. Giebel, The Netherlands; Group Capt. Alexander Hess, of the Czechoslovakian Washington Legation; Group Capt. Stefan Szuk, Chief of the Polish Air Mission in Canada; Hon. Frank Langstone, New Zealand High Commissioner; Capt. Alfred Leondopolous, Greek Naval attaché at Washington; Baron Silvercruys, Belgian Minister; South African High Commissioner de Waal Myer, and Rt. Hon. Harold H. Balfour, British Parliamentary Under-Secretary of State for Air.

Lord Brabazon

Speaks

R.A.F.'s Tactics Hotly Criticized

LONDON (CP)—Bombing alone will not win the war, Lord Brabazon, pioneer airman and former minister of aircraft production, declared today in a speech hotly attacking present policies of the R.A.F.

The speech—a Wilbur Wright memorial lecture prepared for delivery tonight before the Royal Aeronautical Society—was released for publication as British and United States air chiefs were reported planning the war's greatest bombing operations.

Lord Brabazon characterized bombing attacks on Germany as a luxury and declared R.A.F. fighter sweeps over the continent were unduly "costly in machines." He suggested some of the craft allotted to these operations might better have been used in the Orient to halt the Japanese advance.

By adopting a policy of trying to "bomb Germany into submission" and protect Britain from invasion with fighters, the R.A.F. is "taking upon itself the whole winning of the war . . . and this can never be done by air alone," he said.

The army is dependent for air support on R.A.F. "charity," Lord Brabazon asserted, but it falls "to think in terms of appli-

cation of air power to new tactical operations, so no new weapons are produced."

This was generally interpreted as an oblique reference to Britain's lack of dive bombers. Lord Brabazon said the navy's "battleship-minded" old "school" henceforth would "call more and more for air support" from "bitter experience."

Lacrosse Squabble

VANCOUVER (CP)—Vancouver box lacrosse fans had a referee-player squabble in their laps today with only one game of the local intercity league program played. Referee Harry Gil-mour Wednesday night called off the Wallaces-Norvans contest with seven minutes to go when Bill Dickinson, Norvan captain, refused to obey his order to leave the field for fisticuffing. Wallaces were leading 13 to 6 at the time.

PROTECTION..of the People...by the People

FRED: Insurance companies are operated for the people, aren't they?
FRANK: Yes, with over four million men and women holding policies life insurance has become Canada's greatest co-operative business. Over 93% of all policies are for \$5,000 or less. Over a million Canadian families come within this huge circle of protection.

FRED: Do many people now have to be convinced that it's a good way to save?
FRANK: No, most people prefer to save with insurance because its regularity "makes them save," as they say. And as for safety, the last war, the flu epidemic and the depression proved how life insurance stands up and always pays a hundred cents on the dollar promptly.

FRED: I've heard that insurance investments total two and a quarter billions. What happens to all that money?
FRANK: In peacetime, it's put to work all over the country, financing homes, farms, highways, schools and industry generally. You can't look anywhere without finding life insurance dollars at work, making jobs for more people.

FRED: But what have they been doing since the war started?
FRANK: Man, that's a real story. Insurance policyholders have a larger investment in war loans than any other group in the country. They've put 300 million dollars into Victory Bonds—enough to build 12,000 Spitfires.

FRED: I've heard that life insurance helps to curb inflation. What does that mean?
FRANK: Well, inflation is caused by people with too much money to spend and too little to spend it on. By buying only real necessities and saving for Victory Bonds and life insurance, prices are kept down and our war effort increases.

FRED: Is life insurance still doing its main job of protection?
FRANK: It is, and always will. Bill Smith's widow continues to be looked after. Tom Jones has his money for his old age. Half a million dollars every working day is paid out in Canada to living policyholders or their families.

"In wartime as in peacetime, life insurance money is the people's money working and fighting for the people"

• More Canadians than ever before are turning to life insurance. The amount of protection held by the people of this country to safeguard the future security of themselves and their families has steadily increased. There has been at the same time a persistent decline in lapsed policies. These facts reflect growing public confidence and satisfaction in life insurance performance.

I can properly report another twelve months of successful administration by the forty-eight life insurance companies in Canada—British, United States and Canadian—members of our Association. We are stewards of the interests of over four million Canadian men and women and our business affects the whole economic life of the Dominion. The operations of our member companies have been conducted in the people's interest with that full consideration for individual policyholders and beneficiaries which has characterized this co-operative business of life insurance.

It is nearly three years since the war began. In that period, reflecting the patriotic spirit of policyholders, life insurance companies operating in Canada have been the largest subscribers to the Dominion's war loans in which they have invested over 300 million dollars. During that period, carrying out the terms of our policies, we have returned nearly 500 million dollars to Canadian policyholders and beneficiaries—five hundred thousand dollars every working day to relieve distress, comfort old age, tide over emergencies. Moreover, life insurance premium dollars, saved out of current income, have been a factor in curtailing unnecessary buying. They have thus assisted in curbing inflation.

In wartime as in peacetime, life insurance continues to be a mainstay of private and public life. Never has it been more emphatically a business of the people's money, working and fighting for the people.

—G. W. BOURKE, President,
at the 49th Annual Meeting of the Canadian Life Insurance Officers Association, May 28, 1942.

In computing the number of words in an advertisement, count five words for the first two lines and seven words for each line thereafter. This is not an absolute guide to the number of lines, much depending on the length of the individual words.

Advertisers who desire it may have replies addressed to a box at the Times Office and forwarded to their private addresses. A charge of 10c is made for this service.

Subscribers wishing their addresses changed should notify this office as well as the carrier. If your Times is not delivered before 7 p.m., a copy will be sent by special messenger.

BOX REPLIES AVAILABLE

Letters addressed to the following boxes are available at the Times Office on presentation of box letters. Maximum results are obtained by advertisers who follow the replies promptly.

NOTICE TO CREDITORS
NOTICE IS HEREBY GIVEN that all creditors and other persons having any claims or demands against the estate of Sidney W. Jory, deceased, who died on or about the 17th day of February, 1942, at the City of Victoria, Province of British Columbia, are required to send to the undersigned, on or before the 29th day of June, 1942, their names, addresses and descriptions, and full particulars in writing of their claims and demands, verified by Statutory Declaration.

AND TAKE FURTHER NOTICE that after the 29th day of June, 1942, the said Administrator will proceed to distribute the assets of the said estate among the persons entitled thereto, having regard only to the claims and demands of which he shall then have had notice, and that, pursuant to Section 28 of the "Trustee Act," the said Administrator will not be liable for the said assets, or any part thereof, to any persons of whose claim he shall not then have had notice, and that he will proceed to make final distribution of the assets at the expiration of one year after the death of the deceased.

DATED at Victoria, B.C., this 28th day of May, 1942.
R. L. COX, Official Administrator,
Administrator of the Estate of Sidney W. Jory, deceased, 415 Central Building, Victoria, B.C.

RAY MILLAND and Claudette Colbert who with Brian Aherne in "Skylark" opening today at the York Theatre.

Amateur Hockey Nets \$39,586

PORT ARTHUR, Ont. (CP).—Frank Sargent, president of the Canadian Amateur Hockey Association, in a report issued Wednesday night, said hockey play-downs during the 1941-42 season netted the C.A.H.A. \$39,586.

Of the total, \$24,770 has been, or will be, distributed to participating clubs, leaving the association with a sum of \$14,816.

With 66 senior games and 44 junior games played in the C.A.H.A. play-downs, Sargent reported eastern games contributed \$26,106 to the "pot," with the balance, \$13,479, coming from western play-offs.

The report showed that the five-game Allan Cup final series between Port Arthur Bear Cats and Ottawa R.C.A.F., cleared \$13,518, or better than the entire proceeds from the western play-downs.

The Memorial Cup junior finals between Portage la Prairie Terriers and Oshawa Generals brought in \$4,432.

The most active club in the play-downs, Port Arthur, collected \$1,580 in C.A.H.A. bonuses, the top share. In the junior division, Oshawa Generals, the busiest team, collected \$940.

Receipts for the Allan Cup finals totaled \$20,978; expenses \$7,459, leaving a surplus of \$13,518. For the Memorial Cup final the receipts were \$10,585; expenses \$6,152, leaving a surplus of \$4,432.

Special financial obligations assumed by the C.A.H.A. for 1942, including grants to eastern and western branches, totaled \$19,050. The report also showed that the association spent approximately \$15,000 for railway transportation, of which \$1,500 was government tax.

Asparagus plants may be male or female; male plants are heavier and yield more spears, while spears from female plants are larger individually and of better quality.

Where to Go Tonight

(As Advertised)
ATLAS—James Cagney in "Captains of the Clouds."
CADET—Gene Tierney in "Belle Starr."
CAPITOL—Mickey Rooney in "The Courtship of Andy Hardy."
DOMINION—"Kid Glove Killer," starring Lee Bowman and Marsha Hunt.
OAK BAY AND PLAZA—Leslie Howard in "Mister V."
RIO—"Street of Memories," starring Guy Kibbee.
YORK—Claudette Colbert and Ray Milland in "Skylark."

DOMESTIC SATIRE SCREENED AT YORK

"Skylark," the fast-moving satire on domestic life, which opened today at the York Theatre, is one of the most amusing screen plays of the year. Reuniting Claudette Colbert and Ray Milland by popular demand, in a 1941 successor to "Arise, My Love," Paramount's "Skylark" is a gay version of what a love-starved wife will do to stir up a bonfire under her neglectful husband.

After five years of cinematic marriage to Milland, Claudette refuses to go on any longer without affection, and more important still, rebels against his other love.

Burned over a final incident, Claudette accepts handsome bachelor Brian Aherne's proposal to go off on a skylark. He shows her the first fun and affection she has had in years, and after Milland falls her on a second chance, she divorces him. Aherne is all set to marry Claudette, but he underestimates Milland's romantic pulling power when the husband embarks on a campaign to win back his wife. It all develops into a comic free-for-all love triangle with laugh-a-minute situations.

'BELLE STARR' ON CADET BILL
Jesse James, Frank James and Quantrell were a few of the colorful names in the address book of "Belle Starr," the bandit queen of the Ozarks, whose exploits come to the Cadet Theatre today in the 20th Century-Fox Technicolor production of that title.

According to the findings of studio research experts, who journeyed to Missouri and Arkansas to uncover the truth about Belle, the "petticoat terror" did a lot more damage to men's hearts with her wiles than she ever did with her guns.

The film, however, concentrates on her romance with Sam Starr, the dashing guerrilla leader whose band she joined and whom she married. Gene Tierney portrays Belle and Randolph Scott is seen as Sam Starr.

Honesty Pays Off In 'Larceny Inc.'
"Larceny, Inc.," starring Edward G. Robinson with Jane Wyman, Broderick Crawford and Jack Carson in the supporting roles, will be shown locally at the Dominion Theatre, starting next Friday. The Warner Bros. picture tells the story of a man who finds that running a regular business enterprise was more profitable than cracking safes. Lloyd Bacon directed the screen play which was written by Everett Freeman and Edwin Gilbert, who based their script on a play by Laura and S. J. Perelman.

Capitol Theatre
Carvel, cinematic home of the Judge Hardy family, had a new business added to it when the establishment of Mickey Rooney, going into the tow-car business with his famous "jalopy," became a part of the place.

This was for "The Courtship of Andy Hardy," latest in the series, now playing at the Capitol Theatre. The story, replete with comedy sequences, blended with human interest, deals with Mickey's efforts, aided by Lewis Stone as the Judge, to "glamorize" Donna Reed, campus queen discovered as screen acting material and last seen in "The Bugle Sounds." Their success adds comedy, and Mickey has to find

Plaza-Oak Bay
Leslie Howard's latest film opus, "Mister V." in which Howard is listed as star, producer and director, is being held over at the Plaza and Oak Bay Theatres. It is a comedy melodrama in which the Nazis and their Gestapo are given a lot of spoofing instead of being taken in dead seriousness.

The reasons? Well, says Mr. Howard, even a villain can have a sense of humor or be a thorough sophisticate. He points out that Von Braun, the Gestapo chief, who is portrayed by Francis Sullivan in the picture, took his job with the utmost seriousness but otherwise he was still a person who had good manners, a steady viewpoint and a sense of humor above average. To picture him as a monster who induced widespread psychoses among innocent people, continues Mr. Howard, is to make him just a wooden character.

ABSORBING FILM ON RIO SCREEN
Hailed as absorbing entertainment, "Street of Memories," with Lynne Roberts, Guy Kibbee and John McGuire, which is now at the Rio Theatre. Ed Gargan, Hobart Cavanaugh and Jerome Cowan are also featured in the top-notch cast of the new 20th Century-Fox picture.

Lynne Roberts and John McGuire in the romantic leads enact a love story that is said to be one of the most unusual ever told on the screen. Set on "Skid-Row," the picture deals with a boy who has lost his memory and a girl who helps him fight for a chance in life. Shepard Traube directed the film and Lucien Hubbard was associate producer.

Jap Version Of Shells Fired At Santa Barbara

(Editor's Note—Japan claimed full credit today for the submarine attack Feb. 23 on an oil field north of Santa Barbara, Calif. The submarine, identified at the time only as an enemy vessel, fired 25 five-inch shells from her deck gun during a fire-side chat by President Roosevelt. They were estimated by oil field officials to have caused damage of \$500. Two huge storage tanks were believed to have been hit, but they were not touched. What the Japanese claim for the attack was given for the first time today.)

TOKYO (From Japanese Broadcasts, AP)—Domei broadcast the following story today:

"The initial eyewitness account of the sensational shelling of the Santa Barbara coastline Feb. 24 (actually Feb. 23) by a Japanese submarine—a story that was carried by newspapers throughout the world for its significance as the first shelling of the American mainland by an Axis submarine—is reported by a Nichi Nichi correspondent who interviewed an officer who participated in the raid at an unspecified naval base.

TELLS OF LIGHTS

"Describing the thrilling surprise assault in which military objectives along the Santa Barbara coastline were damaged by gunfire, a lieutenant who preferred to keep his name secret, said that when the Japanese U-boat bobbed up off the California coastline there were no signs whatsoever of enemy patrol activity.

"With the raid being timed at night, he said, the illumination of the town of Santa Barbara and the twinkling of beacon lights of oil storage tanks and derricks were clearly visible. Along the coastal highway speeding cars threw a glare of headlights into the night and the entire coastal area presented a peaceful and wholly unwarlike scene, the officer said.

"When the first shot was fired from the submarine, the lieutenant continued, there were immediately signs of consternation, and those on the U-boat heard the distant sounds of shrieking sirens.

DANCED ABOUT

"Everyone on board completely forgot the hardships they had encountered in making the crossing from Japan when the first shell shattered the night and

CHECKING TRAVEL

N. R. DesBrisay, assistant passenger traffic manager, Canadian Pacific Railway, Winnipeg, reached the city today on a periodical inspection trip to the coast. He spent some time in Vancouver and Seattle before coming on here.

Without going into the tourist situation, Mr. DesBrisay said briefly, "We are figuring on a steady travel movement and the company is making every effort to handle it satisfactorily. We shall meet the situation as it presents itself."

While here, Mr. DesBrisay met Capt. R. W. McMurray, manager of the B.C. Coast Service; Russ J. Burland, general agent, and Bruce Burpee, general passenger agent, Vancouver.

When the second and third shots set targets on fire all the crew danced with joy and threw their arms around each other, he said.

"On making sure they had set fire to all oil tanks in that area, the U-boat submerged, disappearing under the waves.

"Asked whether the raid was timed for President Roosevelt's fireside chat, the officer said he didn't know about it, but was amused to hear later that the attack occurred when Roosevelt was making another one of his diatribes against the Axis."

HALIBUT SALES

PRINCE RUPERT, B.C. (CP)—Halibut sales on the Prince Rupert fish exchange today:

Canadian: 36,000 pounds at 14.5 cents and 12 cents and 14.6 cents and 12 cents.

American: None.

DIVIDENDS

Bell Telephone Company of Canada, \$2.00 per share, quarterly, payable July 15.

Freighters Hit Back at Subs

By FRANK LOWE

AN EAST COAST CANADIAN PORT (CP)—Lumbering merchant ships are no longer the easy targets for marauding submarines they once were. They are equipped to hit back now, and hitting back they are—with good effect, too.

Daily the offensively-armed freighters and tankers ease into this port, a few showing signs of scrapes with undersea raiders but with more and more crews telling of having successfully battled off U-boat attacks.

One instance concerns a tanker, captained by a phlegmatic Dutchman, that steamed in here with a hole-blown in her side. "We didn't even slow down when the torpedo hit us," the captain said, adding that after a two-hour running fight the U-boat was forced off.

Another case has an English freighter as the victor. Thinking the heavily-laden ship was an easy mark, a German submarine surfaced, apparently planning to pound the boat under the waves with a salvo of shells.

"But the guns of the merchantman opened fire first, and the submarine limped away. Later a flying boat delivered the death blows to the sub.

Reason for this change from the early days of the war, when a merchant ship's safety lay only in her speed, are new weapons naval authorities have placed on the ships. Guns are now mounted and anti-aircraft batteries poke skywards from vantage points.

Manning the guns are not only seamen but specially trained army men dressed in regulation army uniform. Once such a berth was considered dangerous but there are now in this port soldiers who have been sailing on merchant ships for months—with the shooting all on the credit side of the ledger.

CATAPULT PLANES

Another big factor in the lowered mortality rate among seamen is the catapult planes. Manned by expert Royal Air Force pilots, these planes are tossed into the air from the decks of the ships at the first sign of trouble and go out looking for the cause of it.

The pilots know their job—many of them have ribbons to prove they are the cream of the fighter crop. And their one joy, apparently, is unloading their guns into a surfaced submarine or marauding raider.

Other weapons to protect merchant vessels have also been developed. Many are used to detect the presence of submarines; others are along offensive lines. Strictly of the "hush hush" variety, the only thing known about these weapons is that they are effective.

CONROY HAS PLAN TO SPEED SHIPS

Patrick Conroy, national secretary of the Canadian Congress of Labor, Toronto, who reached the city today to confer with local labor leaders, said in an interview that a national industrial council is needed for the shipbuilding industry to speed up the production of ships.

Mr. Conroy said such a council should include representatives of labor and the shipyard operators under government chairmanship. It would lay down a Dominion-wide policy on production, material supply and labor stabilization.

Inspect Island Site For Wooden Vessels

LADYSMITH—Bertram Foster of the Victoria Motor Boat and Repair Works, and R. C. J. Franks of Victoria visited Ladysmith to inspect a potential site for the building of small wooden ships.

The inspection was made on behalf of Alan Innes-Taylor, representing the United States War Shipping Administration, and a report and recommendation on the local situation for shipbuilding will be prepared. Mr. Innes-Taylor was unable to make the visit personally, as he had previously planned. Facilities for the building of wooden ships were inspected.

Ladysmith City Council is affording these investigations every facility possible through a special committee, including Mayor W. W. Walkem and F. L. Kitto, city clerk.

Ships Only Limit B.C. Lumber Export

VANCOUVER (CP)—Timber Controller A. S. Nicholson, recently returned from a first-hand study of the United Kingdom's lumber picture, said in an interview here that Britain can absorb all the lumber British Columbia can deliver and urged all west coast loggers and lumbermen to increase production.

"Britain's requirements are limited only by the extent to which we can find the ships to carry the goods," the timber controller said.

Mr. Nicholson is currently on a west coast tour with Elliot M. Little, director of National Selective Service. They met British Columbia lumber interests and heard of production problems, caused mostly by a scarcity of loggers in the lumbering industry. Today they met representatives of the pulp and paper industry.

DIVIDENDS

De Havilland Aircraft of Canada preferred, 1 1/2 per cent plus 1 1/2 per cent on arrears, payable June 15.

New York Stocks

NEW YORK (AP)—Irregularly-seeped into today's stock market as profits were cashed on Wednesday's climbing steels and motors.

While plus signs were fairly well distributed in the final hour, losses were sufficiently numerous to cloud the direction.

The approach of a lengthy week-end—principal markets will recess Saturday for Memorial Day—caused lightening of commitments here and there, brokers said.

Backward inclinations were exhibited most of the time by U.S. Steel, Bethlehem, General Motors, Chrysler, American Telephone, Western Union, DuPont, American Can, Anaconda, Union Carbide and Caterpillar tractor.

Among Canadian stocks, Hiram Walkers gained 1/4 while Dome, Canadian Pacific and Distillers Seagrams were unchanged.

Dow Jones averages closed today as follows:

30 Industrials—100.99, off 0.10

20 rails—24.15, off 0.10

15 utilities—115.1, up 0.02

Total sales—\$35,000 shares.

Early Gains Lost

TORONTO (CP)—The stock market maintained an even keel in today's operations. Gains had a narrow margin on the up side in early trading but gains were largely eliminated in the late afternoon.

Brazilian was active with the price unchanged although the stock was selling ex-dividend to Toronto. Distillers Seagrams and Ford A. Distillers made up their dividends.

Soft spots in the gold group included Hollinger, Pamour, Upper Canada, O'Brien, Pioneer, Perron and McKenzie. Narrow gains were held by Buffalo, Ankerite, East Malartic, Sylvanite, Leitch and MacLeod-Cockshutt.

Smelters, International Nickel, Ontario Nickel and Steep Rock weakened slightly.

Home and Calmont Oils displayed slight weakness.

C.P.R. Remodels Cars On Wartime Lines

MONTREAL (CP)—In order to maintain essential passenger traffic under wartime conditions, Canadian Pacific Railway has taken necessary steps to remodel certain types of passenger cars for present day requirements and to build as many units as possible, it was stated here by W. M. Neil, vice-president.

Ten first class day coaches have already been built and placed in service, and construction will be started shortly on the remaining 15 of 25 ordered to be built.

Adaptation of existing equipment to meet the needs created by wartime travel is under way, Mr. Neil said. In this connection two compartment sleeping cars have been converted and are now in service as cafe-sleeping cars, renamed the Mattawa and the Montreal, for service on transcontinental trains No. 1 and 2.

With many others being changed into popularly equipped section and double-bedroom cars, the de luxe orient cars used during more opulent periods are being made into buffet solarium lounge, double bedroom cars now known as the "Cape" series, and provide double bedroom and compartment accommodation at night and seating room in the daytime.

Seeding Completed By End of Month

WINNIPEG (CP)—Cool weather, bringing light to heavy frost in some areas in northern Saskatchewan and Alberta, and favorable moisture conditions in Manitoba, are reported by agricultural departments of the Canadian National and Canadian Pacific Railways in crop reports released today.

Sowing of coarse grains is slightly behind in Manitoba and Alberta, and in Saskatchewan is ahead. Early sown grain in some districts of the prairie provinces shows above ground at heights up to five inches. Wheat seeding in Manitoba with the exception of some eastern districts will be completed this week and all seeding in the province will be completed by the end of May.

Smelters, International Nickel, Ontario Nickel and Steep Rock weakened slightly.

Home and Calmont Oils displayed slight weakness.

Dorothy Dix:

Girl Told Not to Let Man Badger Her Into Marriage

DEAR MISS DIX—I have been going with a man off and on for two and a half years. He is 31 and I am 19. He is crazy in love with me. Spends all he makes on giving me good times. Never goes with any other girl. I enjoy being with him, but he is so jealous that he simply has a fit if I have a date with any other boy. The trouble with me is that I am sure of his love for me, but I don't know whether I love him.

He has been pleading with me and begging me to marry him for the last year, but it seems that there is something that whispers to me and tells me not to do it; but when I hesitate he threatens to commit suicide. Says if I don't marry him he has nothing to live for and he might as well end all of his worries and troubles. If he should do this, people might blame me for it and I might lose all my friends.

I have a job that I would lose if I married, so my Boy Friend suggests that we be married secretly and says that I could still work for a year if I wanted to before we told it. But things will get out, no matter how you try to hide them, and somehow I have never favored a secret marriage. I could have plenty of dates with other boys if I wasn't for this man, but if I should break with him there is no telling what he might do to himself, and I wouldn't want anything to happen to him like that. What do you think I should do?

WORRIED GIRL.

Answer: Evidently you are not in love with the man and you should break off with him before you let him badger you into a marriage that will bring no happiness to either one of you. You should do this in justice to him as well as yourself, because no man is in a more unfortunate position than the one who has a wife who merely tolerates him and who brings to marriage none of the deep affection and tenderness that a husband has a right to expect from his wife.

WOULD MAKE LIFE MISERABLE

And if this man is jealous now of any attention that you receive from other boys, think what he would be after you were married to him and he found out, as he would be bound to do, that he really did not possess your heart, that you merely liked instead of loved him. He would make your life a hell on earth with his suspicions and reproaches, and you would not dare even so much as speak to an old school mate, or show any interest in your brother.

Don't marry any man for pity and because he makes himself romantically miserable before you. Lots of girls make that mistake and when it is too late they find out that they can't keep on being sorry for a man who weeps on their shoulders. They have a contempt for him and think that he should have had enough backbone and grit to have borne a disappointment without whining all over the place, and that especially

he should not have been willing to sacrifice them to his unrequited passion.

Don't let him frighten you into marrying him with his threats of suicide. Call his bluff. He won't do it. Your refusal to marry him won't even make him miss a meal. And don't marry secretly. It silms a marriage over, for nobody ever believes in a belated marriage certificate.

You have a good job. My earnest advice to you is to hang on to it and wait for somebody to come along whom you want to marry as much as he wants to marry you.

IS IT BECAUSE SHE IS A BLONDE?

DEAR MISS DIX—I am secretary to a fine man who is married to a woman to whom he is very devoted. He is always telling me how wonderful his wife is and I am sure there is no other woman on earth so far as he is concerned, and I greatly admire him for this.

Now our relations are absolutely and entirely that of employer and employee, but there have been times when I have had lunch with him when there was business to talk over; and when I have had to work until late in the evening he has driven me home. Nothing could have been more innocent, but some trouble-maker has gotten the wife all stirred up about it and the poor man is being nagged to death about it.

Why can't wives have enough sense to see that to the great majority of business men their secretaries are just an office convenience? Nothing more.

BLONDIE.

Answer: Maybe it is because you are a blonde, and wives seem to be sold on the belief that no man can resist yellow hair. Possibly if you would get a black wig you could set the poor lady's mind at rest and save Friend Husband from being further nagged.

Of course, there are some predatory ladies in offices, but likewise there are a lot of husband-stealers in parlors and they are to be found even among wives' best friends. Also, there are philandering men who pick out their secretaries for their figures, not for their spelling. But these dangers to married life exist everywhere, and unless wives put blinders on their husbands, or retire with them to Eveless Edens as soon as they are married, they are bound to be exposed to temptation.

In reality, the jealousy of wives over their husbands' secretaries is mainly wasted emotion and groundless fears. The average business office is no love nest. It is a work shop. The average business man reserves his sentimental dalliance, like he does his drinking, for after business hours. His mind is concentrated on the pursuit of the lady on the dollar, not glamour girls, and he is too busy, too driven, too worried to spend a thought on whether Miss Pothooks is pretty or ugly, whether she is sympathetic

and understanding or hard as nails.

All that he is interested in is the kind of work she turns out. The first time most business men ever take a second glance at their secretaries, or regard them as personalities is when their wives ask them why they had to get such good-looking, or they begin to drop into the offices at odd times and give other manifestations of jealousy.

Nor, on the other hand, does the average secretary have any designs on her employer. He may look like a Prince Charming to his wife, but to Miss Pothooks he is just a fat, stodgy man getting bald, and instead of envying his wife she is sorry for her, and thanks Heaven she doesn't have to stand his irritation and fault-finding but for part of the day, instead of having a lifetime of it.

She has her own boy friend and is collecting things for her hope chest. Wives would save themselves a lot of tears if they would only view their husbands' secretaries with clear eyes instead of through green glasses.

Uncle Ray

Great Care Needed in Handling Medicines

Recently an 11-year-old boy named John Inwood found a bottle filled with white tablets a short distance from his school, and took them to his teacher, saying:

"Will you please take care of these tablets? They are poisonous. The label says 'Nux Vomica' and that contains strychnine. I know, because I looked it up in the dictionary."

The boy was right when he said Nux vomica contains the drug called strychnine. It is a powerful drug, and can poison a person if he takes more than a tiny amount.

If anyone in your home should have the bad fortune to be poisoned, there are two things to do and do quickly. One is to look on the bottle and see whether an "antidote" is shown and, if so, to follow directions. The other is to call a doctor and have him tell you over the telephone what to do while he is on the way to your home. Fast action may save the life of a person who is poisoned.

(For general interest or safety section of your scrapbook.)

When a very small amount of nux-vomica is placed in a tablet, it may be helpful in treating certain stomach and nervous diseases. People should not use it, however, except on the advice of a doctor. To much of it will cause death.

Even when a doctor prescribes this drug, people must take care to keep it from the reach of babies and tiny tots. What if a baby should "eat up" a bottle of such tablets? When babies crawl or toddle about, they always seem to want to find something to eat. They know little, if anything, of what is bad for them.

The same statement might be made about dozens of other kinds of drugs. In the right hands, they can do good, but in the wrong hands they may cause great harm.

Hush, Pretty Lady,
Don't You Cry;
You'll Get Money
If You Try.

I AM A TIMES WANT AD

and I am Victoria's Champion Money-raiser. Here are a few of the many methods which I use to increase people's incomes:

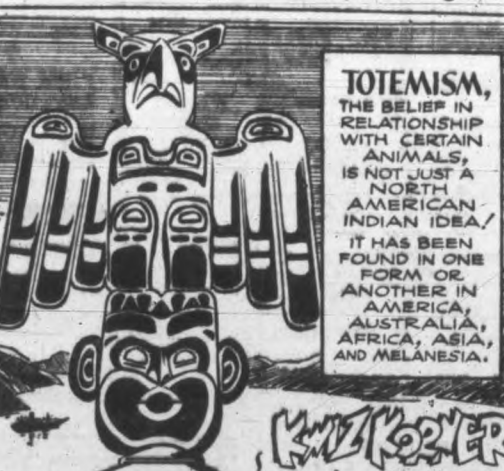

- locating tenants for extra rooms;
- bringing cash buyers for radios, refrigerators, rugs, recordings;
- finding buyers who pay cash for bicycles, beds, band instruments, books;
- contacting people who want cameras, cooking utensils, chairs, camping equipment.

There's nothing of value which I can't sell.

Victoria Doctors Going to Jasper

JASPER PARK LODGE, Alta.
—When Dr. A. E. Archer of Lamont, Alberta, president, calls to order the 73rd annual meeting of the Canadian Medical Association taking place here June 15 to 19, he will be addressing the largest convention ever to convene at this famous summer hotel operated by the Canadian National Railways.

attend, many accompanied by their wives. Reservations have already been made for 750, according to Dr. T. C. Routley, general secretary of the association, Toronto. It is anticipated this number will likely increase before the opening of the convention.

The annual meetings of the British Columbia and Alberta Medical Associations will be held here simultaneously. It is expected that British Columbia will send about 150 delegates headed by Dr. C. H. Hankinson of Prince Rupert, president of the B.C. Medical Association, and following executive members: Dr. A. H. Spohn, Vancouver; Dr. P. A. C. Cousland, Victoria; Dr. A. Y. McNair, Murray Blair, Wallace Wilson and G. F. Strong, all of Vancouver. Members of the College of Physicians and Surgeons of British Columbia will be headed by Dr. W. A. Clarke, New Westminster, president, and following officers: Drs. F. M. Bryant and Thomas McPherson, Victoria; Drs. H. H. Milburn, A. J. MacLachlan and M. W.

Thomas P. O'Connell, whose parents live at Glenford Avenue, Saanich, have just received word that he won three scholarships and his B.A. at Queens University. The scholarships were: the W.W. Near Scholarship in Classics, the Roberta McCulloch Scholarship in English, and the Arts '09 Scholarship in History. O'Connell, who is 25, attended Mount View High School and Victoria College here.

Friendly Planes Put Los Angeles on Alert

LOS ANGELES (AP)—The Los Angeles area had an air raid alert this morning when unidentified planes, later identified as friendly, were detected approaching the city.
The yellow alert was flashed at 2:03 a.m. and radio stations were ordered off the air a minute later. The blue signal was given at 2:19 a.m., and the all-clear at 2:31 a.m.

They'll Do It Every Time

Island Baptists Choose Officers

REV. W. L. MCKAY
Vancouver Island Baptist Association held its annual spring conference Wednesday and chose Rev. Wilfred L. McKay of Emmanuel Baptist Church, as its president.
He succeeds Rev. G. A. Reynolds of First Baptist Church.
Also elected to office were five vice-presidents, William Cochran, Nanaimo; Rev. Dr. W. F. Daffoe, Chemainus; Mrs. Samuel Gregory, Douglas Street Church; Don Smith, Emmanuel Church, and C. G. Gooderham of First Church.
G. W. Miller of First Church was named secretary-treasurer.
The day's sessions were held at Emmanuel Church, opening with a women's hour at 3 in the afternoon, presided over by Mrs. A. H. Marston. Mrs. F. W. McKinnon led the devotion period and Mrs. M. Bancroft gave the address. Mrs. B. S. Gillie contributed a solo. First Baptist Church Women's Society presented a missionary pageant and W. N. Finlay led discussion on the increasing effectiveness of the association.
Supper was served at 6:15 by the ladies of Emmanuel Church.
Mr. Reynolds presided at the evening meeting. Don Smith led the song service and Rev. F. W. McKinnon conducted the devotional exercises.
Addresses were delivered by Rev. Hugh A. McLeod of First United Church, and Rev. Eric Gosden, acting minister of Nanaimo Baptist Church.
The autumn meeting of the association will be held at Nanaimo.

Commissioners
Five Victorians and 14 Oak Bay residents have been appointed elections commissioners under the Provincial Elections Act by a recent order in council of the provincial government. They are J. T. Stott, George Bennett, Gertrude E. Bennett, J. H. Buckett and Geoffrey La Galla; Victoria; J. V. Johnson, G. N. Mowat, Prof. E. S. Farr, J. H. Harman, Stephen Flanagan, W. N. Winsby, W. S. Kirkpatrick, John McNeill, Mrs. N. M. Mitchell, Mrs. M. E. McKinnon, Frank Murphy, P. J. Doherty, F.

Bladder Weakness and Kidney Trouble Ruin Health for Thousands

There are few ailments that can make you feel older, more worn-out and unable to keep going than bladder weakness and kidney trouble. And the reason for this is that when your kidneys and bladder slow down in their work uric acid and other poisons gradually accumulate in your system and frequently cause backache, getting up nights, leg pains, nervousness, rheumatic pains, frequent colds and loss of energy.

Help Kidneys Remove Acids
Women, and men too, will be surprised and delighted to see how quickly and easily they can relieve backache, getting up nights, burning passages and other kidney and bladder troubles by simply aiding the kidneys and bladder to filter and clean out excess acids and poisonous wastes.

As we grow older our kidneys at times may slow down in their work of filtering and purifying the blood. And when this happens uric acid, and other poisons have a tendency to accumulate in the system, making you feel older, worn-out and suffer from many aches, pains and troubles. But by simply helping the kidneys and bladder to perform their work more normally thousands of men and women in Canada and throughout the British Empire have discovered joyous relief and new energy.

Forty years ago, a scientific formula called Cystex was made available to the public through drug stores, making it easy and inexpensive to help thousands suffering from kidney and bladder troubles in these three simple ways: 1. Help the kidneys remove excess acids, which may become poisonous and irritating. 2. To palliate burning and smarting of the urinary passages, and bladder irritation. 3. Help the kidneys clean out wastes which may become poisonous, thus aiding nature in stimulating an increase of energy and a more youthful feeling.

Money Back Agreement
The very first dose of Cystex usually goes right to work helping the kidneys remove excess acids, poisons and wastes. And this cleansing, purifying action in just a day or so may make you feel younger, stronger and better than in years. A printed agreement wrapped around each package of Cystex insures an immediate refund of all your money unless you are completely satisfied. You have everything to gain and nothing to lose under this positive money back offer. Get Cystex today for only 35c. The money back offer protects you.

Cystex
Helps Clean Kidneys

NEW WAR POST FOR VICTORIAN

OTTAWA (CP)—R. A. Strong, consultant in the munitions contracts branch of the Munitions and Supply Department, has been appointed director of the branch, the department announced.

A native of Victoria, B.C., Mr. Strong worked in Mexico and southern Saskatchewan before joining the bureau of mines as a carbonization engineer. He went to the munitions department early in 1940.

Soap for your washing machine will do a more efficient job if dissolved in boiling water, says a home economics expert.

No more "Pie Crust Jitters!"

DID I USE
TOO MUCH WATER?
WILL MY PIE CRUST
TURN OUT TOUGH?

At last! A brand-new way to get
FLAKY PASTRY EVERY TIME
—IT'S GUARANTEED!

Pie crust success or your money back—but only with **Crisco, the different shortening!**

Lady! Forget your pie-making troubles! For Crisco now guarantees flaky tender pie crust!

You see, pure, all-vegetable Crisco is different—due to an exclusive process, it contains a new pastry success secret found in no other shortening you can buy. And only Crisco's New Pastry Method guarantees success—or your money back.

Now two big causes of tough pastry ended! One—no more guessing how much water to use in pie dough. Two—no more sticky dough. Crisco's new way of measuring and mixing gives you dough that's easy to handle and roll out.

And hooray—what golden flaky pie crust! Folks'll say, "Goah, Mom—it's wonderful!" Use digestible Crisco and its new guaranteed method as your winning combination—begin today!

GUARANTEE—Follow Crisco's method exactly and you'll get tender flaky pastry. If dissatisfied, write us on the back of a Crisco label, telling in what way pie crust was unsatisfactory. Tell what you paid for your Crisco and we'll refund the price of one pound. Address Crisco, 1600 Avenue Delorimer, Montreal, Quebec. Offer expires August 30, 1942.

TRY CRISCO'S NEW PASTRY METHOD—IT'S GUARANTEED!

DOUBLE-CRUST MEASUREMENTS: Sift 2 cups flour and 1 teaspoon salt into bowl. Take out 1/4 cup of the flour and mix with 1/4 cup water to form a paste. (Cookbook recipe doesn't tell you how much water to use—but look! Crisco's method does!)

Now add 1/2 cup Crisco to remaining flour (1 1/4 cups); cut Crisco in until the pieces are the size of small peas. (You never need to chill Crisco. Notice how creamy it is, how easily it blends in!)

Next, add flour-paste to Crisco-flour mixture. Mix thoroughly until the dough comes together and can be shaped into a ball. Divide in half—roll out both crusts about 1/4 inch thick. (Notice the new way of combining ingredients! No need to over-handle the dough now! It's not sticky—it's just right to roll out easily!) All Measurements Level.

TWIN PIES—

Instead of one double-crust fruit pie—make two turnovers. Lay pastry circle in pan—put filling on half of dough. Fold over, crimp edges. Repeat for second turnover in other side of pan. Use two different fruit fillings—or, for a small family, use identical fillings and save uncut pie for next meal. For rhubarb and strawberry pies illustrated, bake in hot oven (400°-425° F.) 30 minutes.

O-OH, I WANT RHUBARB!

I WANT STRAWBERRY!

**FOR FLAKY
PIE CRUST...USE CRISCO AND BE SURE!**

MADE IN CANADA

Offer Air Schools On Nonprofit Basis

OTTAWA (CP)—Civilian flying companies operating nine air observer schools for the R.C.A.F. have offered to run the schools on a nonprofit basis, apart from a 5 per cent return on capital investment.

Air Minister Power, issuing a statement to the press through R.C.A.F. headquarters, said the move followed discussions with the Dominion government begun nearly three months ago.

He added the companies had offered to return to the government all profits which have accrued from their operations since the inception of the schools.

The statement said the nine air observer schools coming under the agreement are those at Malton, Ont., Edmonton, Winnipeg, Portage la Prairie, Man., Ancienne Lorette, Que., St. Johns, Que., all operated by Canadian Pacific Airlines Ltd., and those at London, Ont., operated by Leavens Bros. Training Ltd., at Regina, operated by Prairie Airways Ltd. and at Chatham, N.B., operated by the Northumberland Flying Training Co.
